GENERAL GRANT.

The Union Republican County Executive Committee, at a full meeting held yesterday, unanimously recommended the nomination of General GRANT for the Presidency. This is a fair indication of the current of public feeling in this county.

THE FREE RAILROAD BILL AND SPEAKER GLASS.

PITTSBURGH, October 28, 1867.

EDITORS GAZETTE: The leading editorial in the GAZETTE of Saturday last, under the caption of "The Legislature," contained, among other statements, the following:

"Hitherto the friends of a Free Railroad Law have been greatly embarrassed and impeded by the obstinacy of the House Committee on Railroads. Even the Speakers representing western counties have constituted this Committee so as to give a Free Railroad bill no chance whatever. It is just to infer that this was the condition on which the Speakership was given them. Their professions of zeal for the measure were comparatively useless, after they had so made the Committee as to serve the purposes of its enemies."

Permit me to say one word to correct this statement, so far as it may refer to the last House of Representatives, over which I had the honor of presiding.

It is my pride to say, without fear of contradiction by any one who knows, that the House of Representatives of 1867 will compare favorably with any previous session for its great and faithful labors in behalf of liberal railroad legislation. Instead of "the friends of a Free Railroad Law having been greatly embarrassed and impeded by the House Committee on Railroads," let me assure you that they were greatly aided by the labors of the Committee. I beg leave further to assure you that the last House of Representatives fully maintained its distinguishing character as the popular branch. It obeyed the popular will. A Free Railroad Law *was* matured and passed with great unanimity—not the "*Bogus Law*" that passed the Senate, and the House refused to consider, but the law simple and pure, without the crossing of a *t* or the dotting of an *i*, as prepared by Senator Bigham—its enemies not daring even to call the yeas and nays on its final passage. Its failure in the Senate was not chargeable on the House.

The charge that the Speakers representing western counties have constituted the Railroad Committee, "so as to give a Free Railroad Law no chance whatever," and that "it is just to infer that this was the condition on which the Speakership was given them, conveys an imputation against the last House, as well as myself, that cannot be sustained by facts, as the passage through the House of the Free Railroad Bill above referred to amply demonstrates. The "enemies of a Free Railroad Law" were not my friends during the bitter contest for Speaker last winter. No railroad question entered into that canvass. My election was the result of issues growing out of the contest for United States Senator, as every one then at Harrisburg well knew. I was the friend of General Cameron, and as such was nominated by the Republican caucus for Speaker, and subsequently elected, *no other question* having, in the remotest degree, to the best of my knowledge, any influence in determining the vote of a single member. Very respectfully yours, &c.,

JOHN P. GLASS.

Remarks.—In writing the paragraph to which Col. GLASS objects, our purpose was to revive the past only to guard the future; and hence we selected general if not ambiguous forms of expression. We did not have his case in our mind; but did have an instance which occurred previously, and to which we called pointed attention at the time, as our readers will remember.

But, under the circumstances, we cannot refrain from suggesting that the Railroad Committee of the House was so constituted last winter that the friends of the Connellsville road found great difficulty in getting the bill in its behalf reported.

EDITORIAL GLEANINGS.

IT has been decided in a Cincinnati court that a man is not necessarily bound to pay his brother-in-law's debts.

HON. GALUSHA A. GROW has purchased the Reno, Oil Creek and Pithole Railroad for $121,000. That sum is about one-tenth the original cost of the road.

INTENSE excitement was felt recently in Antwerp, Ohio, on account of the attempt twice repeated of some democrats to fire the office of the Republican newspaper.

J. PRINGLE JONES, ESQ., has been appointed by Gov. Geary Judge of the Third Judicial District, to supply the vacancy occasioned by the resignation of Judge Maynard.

A run on the Royal Canadian bank, in Toronto, was successfully met the other day. The bank was so confident in its abilities to meet all demands, that it indulged in a little bravado by leaving its doors open an hour longer than usual.

THE GERMANS of Philadelphia have become very enthusiastic over the idea of a new theatre. One hundred thousand dollars is almost raised, and a fine and ornamental building is to be erected, capable of holding a first-class paying audience.

A MAN of thirty-four years of age shot a lad of sixteen, in Philadelphia, on Friday, during a scuffle in which they were engaged. The shot was fired from a pistol charged with buck shot, which made a painful but, it is thought, not serious wound.

A PHILADELPHIA paper is congratulating the people on the heavy decline in rents in that city. Here we cannot, however much we should like to, offer any such congratulations; nor do appearances warrant us in entertaining any hopes of a reduction for some time.

KOSSUTH evidently takes his waning popularity very much to heart. He feels keenly that he is no longer a demigod. The last we hear from him is that in a letter he has attacked Deak and his party, accusing them of treason, and also withdrawing contemptuously from the field as a candidate for the representation of the town of Zombor in the Hungarian Diet.

AN unusual accident occurred at Adrian, Michigan, recently. An omnibus full of people was run away with by its horses and a kerosene lamp was upset, setting the omnibus on fire. All of the passengers escaped unhurt from this peripatetic bonfire with the exception of one woman, who was slightly bruised. The horses were not quieted by the conflagration in their rear, but ran until completely exhausted. The omnibus was completely destroyed.

WE have all heard a deal about whiskey and oil frauds lately, and every smoker knows that Havana cigars can be bought at a less price sometimes than the duty would amount to, but the Government, not satisfied with having all of these frauds on its hands, has been feeling around for more, and we now hear that the Dale silk mill at Patterson, N. J., has been attached by the authorities, the owner being charged with defrauding the revenue out of $16,000. If we mistake not, these mills have for some years been languishing for want of an adequate duty on foreign silks, and have probably taken this method of protecting themselves.

GARIBALDI OVER THE BORDER.

FLORENCE, October 27—*Evening.*—Gen. Garibaldi has crossed the Roman frontier, and is now at the head of four thousand men.

DEPARTURE OF THE FRENCH FLEET.

TOULON, October 26—*Afternoon.*—The French fleet of iron-clads, destined for service in Roman waters, left this port under an Imperial order at six o'clock this morning. The troops which were designated to operate on the defences of the Holy See, on the occasion of the first Garibaldian alarm, and which have been encamped near the town since, are again in motion, and are to embark and sail for Papal territory immediately. The authorities here are engaged in shipping war material on board of transport vessels with great activity.

LATEST DISPATCHES.

LONDON, Oct. 26.—*Midnight.*—The following dispatches were received to-night:

Paris.—Saturday night.—The fleet of war steamers left Toulon this morning under orders to proceed to Civita Vecchia. The embarkation of troops on board the transports at Toulon was completed and a dispatch announcing their departure for Italy was momentarily expected.

VICTOR EMANUEL'S SOLDIERS REFUSE TO FIGHT AGAINST GARIBALDI.

FLORENCE, Oct. 28.—*Evening.*—The soldiers of King Victor Emanuel refuse to fight against Garibaldi.

RADICAL MINISTRY.

The cause of national unity in the court of the King's Government is gaining ground. It is now considered certain that a thoroughly radical ministry will be formed, whose policy will be devoted to making Rome the capital of Italy.

THE POPE TO THE BISHOPS.

ROME, October 26.—The Pope, in a letter to the Bishops, says the patrimony of the Church is attacked by revolutionists, and asks them to order prayers for the Holy See.

FIGHT WITH THE POLICE—GARIBALDIANS ATTACKED WITH BAYONETS.

The police in searching a house, on Friday, met resistance. They attacked it with the bayonet, and fifteen Garibaldians were killed and thirty-six wounded. A quantity of arms and bombs were captured.

TURKEY.

RUSSIA'S DEMAND FOR THE CESSION OF CANDIA REFUSED.

NEW YORK, October 28.—The *Tribune's* Constantinople letter says: Turkey refused decidedly the Russian demand to cede Candia to Greece. Russia, the writer says, will not, however, force Turkey to war until Europe is busy with its own affairs; but the way is now prepared, and if war comes now this rejected advice will be presented as justification for it.

FINANCIAL AND COMMERCIAL.

LONDON, October 26.—Since the receipt of telegraphic advices from New York, 5-20's have advanced to 69¼. Other American securities firm.

PARIS, Oct. 26—*Evening.*—The feeling on the Bourse is better and rentes are stronger.

FRANKFORT, Oct. 26—*Evening.*—U. S. bonds 74¼.

FOUR SERMONS IN ONE DAY.

Rev. Newman Hall preached four sermons in this city, yesterday, before crowded audiences of four different denominations, Presbyterians, Reformed Dutch, Congregationalists and Episcopalians.

REVENUE SEIZURES.

Nine distilleries, &c., were seized today. The *Post* says an officer connected with the Internal Revenue service today visited a bonded warehouse at Nos. 455 and 457 Tenth avenue, which was seized in April last, and found that about 6,000 gallons of whisky had been removed and replaced by water. It is supposed the bonds given at the time of the seizure are worthless. If this is true, the government will lose a tax of $12,000.

GEORGIA.

The Election To-morrow—Conservatives will Take no Part—Polls to be Open Three Days.

[By Telegraph to the Pittsburgh Gazette.]

AUGUSTA, October 28.—The Republicans held a mass meeting to-night. Messrs. Blodgett, Ballock, Conley and Beard, candidates for the Convention, made speeches endorsing the Atlanta platform. Steps have been taken to preserve order during the election. The freedmen are coming from the country this evening to take part in the election. There are no opposing candidates, the Conservatives having determined to take no part in the election.

SAVANNAH, GA., October 28.—The election for delegates to the Convention will commence to-morrow and continue three days.

Yellow Fever Bulletin.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, Oct. 28.—There were seven interments from yellow fever for the last twenty-four hours up to 5 p. m. to-day. The weather is very warm.

The races on the Memphis course have been postponed.

NEW ORLEANS, October 28.—There were ten deaths from yellow fever yesterday and sixteen to-day. No frost yet. Absentees are cautioned to remain away a short time yet.

MOBILE, October 28.—There were twelve interments from yellow fever during the past two days. Weather cloudy and cold. There were heavy rains yesterday.

Attempt to Wreck a Train.

[By Telegraph to the Pittsburgh Gazette.]

CONCORD, N. H., October 28.—Some villain attempted on Saturday evening to throw the Northern Express train for Boston from the track, at Thornton's Ferry, on the Concord Railroad, by placing a piece of rail about five inches long, inserted in the frog at the switch. Fortunately the train stopped to leave a passenger, and passed over the obstruction at slow speed and no damage was done.

Attempt to Kill a Mail Agent.

[By Telegraph to the Pittsburgh Gazette.]

SACO, ME., October 28.—J. C. Adams, mail agent between Boston and Portland, was shot at in one of our streets last night, the ball grazing his head and rendering him insensible for a moment. The ruffian then attacked him with the butt of his pistol inflicting severe wounds before being frightened away. The would be murderer, and his reasons for the attempt, are unknown.

GREAT STORM ON THE RIO GRANDE.

Unprecedented in the Memory of Man.

DETAILS OF THE DAMAGE AND LOSS OF LIFE.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, October 28.—The *Picayune* has the following advices, which confirm previous accounts given of the destructive effects of the late storm upon the Rio Grande. The hurricane was the most terrible in the memory of man. On the frontier a perpetual bombardment for years could hardly have done as much damage as happened from this one night's storm. Twenty-six persons were killed at Matamoras and ten killed and one wounded at Brownsville. At Brazos, so far as known, twelve persons perished. Two schooners were blown ashore, and only two houses left standing at Clarksville, and none at Bagdad. The loss of life in the latter place is not known; ninety of the inhabitants escaped by going on board a vessel which rode out the storm. The rest have perished. The negro soldiers and their officers, at Brazos, are said to have acted infamously. They not only refused all assistance to struggling and suffering families, but retired to a sheltered part of the Island, and the soldiers returned the next day to rob the wrecked goods under the ruins of the warehouses and dwellings. One of them was shot and killed by a citizen who detected him in robbing. Their officers, it is said, did nothing to check their brigandism. From the long list of damages at Brownsville, we extract the following: King & Kennedy's warehouse, roof blown off; building very badly damaged; county court house and jail completely destroyed and prisoners all at large. The entire square surrounded by Brown, Fourteenth, Levee and Elizabeth streets, was destroyed, including the *Ranchero* office and Masonic Hall. The *Courier* has the roof off. The residence of W. J. Stark, correspondent of the New York *Herald*, was completely destroyed; the Custom House wall was blown down; the Presbyterian church destroyed; Postoffice building roof blown off; the hotel and elegant billiard saloon of Mr. Miller almost ruined; the iron building of Wilkins, Hey & Co. totally destroyed. Between Tenth and First streets seven brick and four frame houses were either totally destroyed or so badly injured as to be uninhabitable. In Matamoras fifteen hundred houses and huts were blown down. The greatest distress and want prevails at all points, and appeals have been made for relief. Out of seven steamers only two can be repaired.

WASHINGTON.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, Oct. 28, 1867.

THE FENIAN PRISONERS.

The British Government decline to release Cols. Warren and Nagle from custody, and have directed that their trials take place immediately. The State Department has directed the employment of counsel for their defense.

RESOURCES OF THE PACIFIC COAST.

J. Ross Browne has returned from his tour of the Pacific coast, and is working on his official report. The general condition of the mining interest is represented as healthy and prosperous, and the development of the Pacific slope, in respect to other branches of industry, is said to be absolutely wonderful. Statistical returns of the production will not vary materially from the following: Montana, twelve million dollars; Idaho, six millions; Oregon, two millions; Colorada, five millions; Nevada, nineteen millions; California, twenty-five million; miscellaneous, five million dollars—for present year. The iron works on Williamette River, Oregon, are averaging nine tons a day of a first-class quality of iron. The wheat and flour exports of California will not fall far short of $10,000,000, and the manufactures alone are represented to amount considerably more than the gold product. The wine crop this year will amount to $3,000,000. While there is a falling off in the gold product, other branches of industry afford more than a counterbalance.

REVENUE DECISIONS.

The Commissioner of Internal Revenue has decided that the selling, or offering to sell, distilled spirits at less than two dollars per wine gallon, does not raise any presumption in law that the tax has not been paid, because the spirits may have been rectified and diluted.

It is not intended by the recent cotton regulation, series 3, No. 5, to require permits and bills of lading for the removal of cotton from point to point within the District where the same is produced, and in case of removal from such district a collector should not exact a fee of the tax payer for marking his cotton.

COUNTERFEIT COMPOUNDS.

The report of more counterfeits having been discovered on compound interest notes, in New York, is incorrect. They are the same counterfeits discovered several months since, none having recently passed the Departments here.

SOUTHERN ELECTIONS.

Intelligence received by the Congressional Committee, from Southern States which have not yet held elections, indicates that in all of them the party in favor of holding a Convention will be successful.

GEORGIA AND FLORIDA.

General Pope has allowed three days for the election in Georgia and Florida, because the voting there is to be done at the county seats. This arrangement was made because the General thought he could protect the colored men and preserve order better than if they voted at the precincts as in other States.

NO PRE-EMPTION IN ALASKA.

In the absence of necessary appropriations to pay for the territory of Alaska, it is understood all pre-emptions in that quarter are in violation of law, and the military authorities will probably be instructed to remove such settlers until the purchase shall be finally consummated by the payment of the money and the Government have prescribed regulations for the same.

BANKING STATISTICS.

The abstract of the quarterly reports of the National Banking Associations show the resources to be one thousand four hundred and ninety-five millions of dollars, including over ten millions of specie, and nearly fifty-seven millions compound interest notes; capital stock, four hundred and nineteen and a half millions; surplus fund, sixty-six millions and two-thirds, and individual profits thirty-three and a half milions.

PATENT OFFICE BUSINESS.

The Commissioner of Patents will issue for the week ending the 5th proximo three hundred and seven new patents. During the week five hundred and sixty-two applications and eighty-two caveats have been filed.

PENSION OFFICE.

The estimate of the expense of the Pension Office for the fiscal year ending June 30th, 1869: Salaries and contingent expenses, $411,340; payment of pensions, $34,740,000. Total $35,151,340.

LAND OFFICE.

During September last one hundred and fifty-four farms, comprising nine thousand two hundred and forty-four acres, were added to the productive force of the State of Mississippi under the homestead act.

VISIT TO NAVY DEPARTMENT.

Secretary Seward, accompanied by Vice Admiral Porter, was at the Navy Department this morning.

DIED OF FEVER.

Surgeon J. D. Murphy died of yellow fever at Pensacola on the 26th.

INTERNAL REVENUE.

The internal revenue receipts to-day were $714,691.99.

GEN. SHERIDAN.

His Reception at Portland, Maine.

[By Telegraph to the Pittsburgh Gazette.]

PORTLAND, Oct. 28.—General Sheridan arrived at Portland, and was received by a salute and ringing of the Church bells. The city Government were at the station to meet the party. Mayor Stevens made a speech of welcome Gen. Sheridan responded. The party then proceeded in carriages escorted by a procession, consisting of "Mechanics Blues" "Army and Navy Union," Sheridan Guards, and a cavalcade. They marched through the principal streets, which were filled by an immense crowd, to the City Hall, where Gen. Sheridan received the citizens who crowded to pay him compliments.

GRANT.

Action of the Union Executive Committee of Allegheny County—The Hero of Many Battles Recommended for Nomination.

A meeting of the Union Republican Executive Committee of Allegheny county was held yesterday at the office of C. C. Taylor, Esq., and after the transaction of some unimportant business, the following resolution was submitted by Wm. A. Herron, Esq., and unanimously adopted:

Resolved, That Allegheny county has full faith in the unflinching loyalty of the hero of many battles, the savior of our country, General Ulysses S. Grant. That in him we recognize a leader worthy endorsement, and urge his election to the Presidency as a fitting acknowledgment of his patriotism and fidelity to his Government. That in view of the situation as now presented to our apprehension, we welcome the movement in his behalf upon the recognized and honorable principles of the Union Republican party; believing that with him at the head there will be no more panics, no further hesitancies, and no senseless and damaging partings down, but a steady and prompt movement for the reconstruction of the Union on a basis that shall promote the ends of public justice, ensure the tranquility of all sections, bind the different States together again in one heart and one mind for the accomplishment of the great destiny that awaits them.

The Committee then adjourned.

Pittsburgher Murdered.

Many of our citizens will be pained to learn of the murder, in cold blood, of Mr. Robert Boggs, formerly a resident of this city, and brother of W. R. Boggs, Esq., of the Ninth ward, which occurred at Westport, Missouri, one day last week. The information concerning the affair, received here, is very unsatisfactory, as few of the particulars are furnished. It appears, however, that Mr. Boggs was assisting as a citizen in the arrest of a desperado, named Straub, when he was stabbed with a knife repeatedly by the unyielding prisoner. He died the following day. The deceased was about thirty-nine years of age and left, at his new home in Westport, a wife and family to mourn his untimely end. He was a tinner by trade and had established at Westport a prosperous and successful store.

Leg Amputation.

John O'Donnell, a boy six years of age, son of Mr. O'Donnell, of Duquesne Borough, had his leg so seriously injured on Wednesday last, at Girty's Run rolling mill, that it had to be amputated. He was sitting on a coal car, which had been left on a switch, near the mill, when a freight train on the Western Pennsylvania Railroad backed on the switch, striking the car upon which he was, sitting with such force as to throw him off. He fell on the track in front of the wheels of a freight car which passed over his leg, crushing it in a frightful manner between the ankle and the knee. Dr. Herron, of Allegheny, assisted by a surgeon from Lawrenceville, whose name we did not learn, performed the operation. The little fellow is recovering slowly.

Two Prisoners in the Penitentiary, named White and Doyle, will be taken before the Supreme Court this forenoon, on a writ of *habeas corpus*. They are from Erie county, and it appears were sentenced by the Judge of that district to four years and six months imprisonment for burglary, whereas, they were convicted of larceny, the maximum punishment for which is three years imprisonment, the Judge being led into the error by an erroneous entry in the minute book which he had before him at the time of pronouncing sentence. The sentences, as will be observed by the opinion of Justice Thompson, published elsewhere, were set aside, and the prisoners will be sentenced by the Supreme Court to-day in accordance with the law. They have been in the Penitentiary, we understand, for about a year.

We call the attention of our readers to the advertisement of Messrs. Wightman & Anderson in another column relative to the loss of certain bonds and notes to the amount of $25,000.

They were lost some time yesterday morning from the side pocket of a member of the firm, somewhere between McClurg & Brother's livery stable on Smithfield street, and the Citizens National Bank, corner Diamond alley and Wood Street, along Diamond alley. Payment of the bonds and note has been stopped, and the papers are therefore of no use to any person who may find them. It is to be hoped that the finder will promptly return them to Messrs. Wightman & Anderson, or their attornies, Messrs. S. A. & W. S. Purviance, 116 Fifth street.

Miss McCaffrey's Concert.—To-morrow night Miss Caroline McCaffrey, the celebrated contralto from Philadelphia, will favor our citizens with one of her grand vocal concerts, assisted by some of the best talent in the country. Miss McCaffrey's reputation as a singer is so well established here that it is useless for us to speak of it. Tickets can be procured at Mellor's music store, and we would advise those who desire good seats to go and procure them at once, as Miss McCaffrey is never allowed to sing to any but crowded houses in Pittsburgh.

Grand Concert.—Our readers will remember the grand concert at City Hall this evening, by the Trinity Church Choir, which comprises some of the best musical talent in the city. The entertainment will consist of secular music from the most popular anthems, which will doubtless be rendered in an unsurpassable manner. Persons desiring to attend should secure seats, as the reputation of the Choir is sufficient to fill the house to its utmost capacity.

Common Gamblers.—John Barry, of Oil City, yesterday appeared before Alderman Lynch and made information against R. R. Logan and W. H. Olney, of Allegheny City, charging them with being common gamblers. He alleges that on the 19th instant they induced him into Smith's saloon, in the Fourth ward, this city, where they "fleeced" him of fifty dollars. They were arrested and held for a hearing.

Valuable Reading.—In another column we publish the first of a series of letters on scientific subjects from the pen of our gifted fellow-townsman, Dr. E. S. Aborn, the well-known physician and surgeon. The letter will amply repay perusal, as it is written in concise language, and in short space unfolds volumes of truths. The remaining letters promised will appear in due season in the GAZETTE.

A Child Poisoned.—A little child, four years of age, son of Mr. O'Donnell, of Duquesne borough, was poisoned on Saturday by eating gympsum. Dr. Herron, of Allegheny City, was summoned as soon as it was discovered that the child had eaten the weed, but on Monday evening there were no hopes of its recovery.

The Alleged Postoffice Robber. Robert A. Black, an account of whose arrest was given in yesterday's *Gazette*, was taken before S. C. McCandless, Esq., U. S. Commissioner, yesterday, and after a hearing was committed in default of bail for trial at the next term of the United States Court.

Internal Revenue Tax.—The monthly tax required to be paid by manufacturers on their products and sales is now due, and should be attended to without delay, as it is designed, by instructions, to impose the penalty on all delinquents after the last day of this month.

Second Ward, Attention!—The Union Republicans of the Second ward will hold a very important meeting to-night at their rooms, No. 66 Smithfield street. Every voter is earnestly requested to be in attendance, as the business to be transacted will interest all.

An Inquest was held by Coroner Clawson upon the body of Elizabeth Nasser, whose sudden death, at her father's house in Lawrenceville, we noticed yesterday. The cause of her death was found to be heart disease.

Sent to the House of Refuge.—Mayor Morrison yesterday committed Michael Kliendertz, a boy fifteen years of age, to the House of Refuge, at the request of his father, who alleged that he could not govern him.

A New Company.—J. C. Martin, of Allegheny City, will organize a military company at the Soldiers' League Rooms Wednesday evening.

For Rent.—See advertising columns of to-day's GAZETTE, of a first-class dwelling house to let, in the Fourth ward, Allegheny.

The Science of Medicine.

Since Harvey, some two hundred and twenty years ago, taught the world of letters the beautiful and gospel-like doctrine of the circulation of blood, the science of medicine has made rapid progress towards perfection. The lives devoted to the study of this all important branch of metaphysics were not lived in vain; ideas formed, perhaps, away down in the darkness of antiquity, have been formed in timely succession, to establish doctrines in physics which are true as truth itself. The science of medicine was never more thoroughly understood than at the present day. The thousand ills in which mortal flesh pains and pines have been taken separately by the profession and subjected to rigid analysis, and facts born out of theories have accumulated to rear a pyramid of invaluable knowledge to which the world has recourse in physical affliction. The rude wood cuts of Mondini showing the untutored of his age the arteries, bones, and respiratory organs of the human being, stand in strange comparison with the beautiful charts which now photograph on the mind the minutest blood conduit or tiniest nerve in the body of mortal man. At the medical office of Dr. E. S. Aborn, the well-known physician and surgeon of our city, we yesterday whiled away our leisure time in a manner by no means unprofitable. In this gentleman's laboratory the student of medicine might find volumes of study more practical and beneficial than the dry gleanings of heavy metaphysical works. Here we have the latest scientific appliances used in the cure of disease, to teach new ideas, and advance doctrines of medicine unknown and unpracticed but comparatively few years ago. Instance the regulated galvanic battery, the delicate instruments of inhalation, and the atomization instrument whereby medicines in the form of vapor are breathed into every air passage of the respiratory organs. Then the multitude of other surgical instruments in glass, brass and steel which are used in the successful treatment of the many diseases to which human flesh is heir. Dr. Aborn's great professional success depends greatly on his thorough knowledge of all the late principles of medicine developed, and, moreover, knowing just how and when to apply the proper remedies. He encounters disease fearlessly when judgment tells him that nature will assist in the cure. Aided by vast experience, knowing the anatomy of man, and thoroughly conversant with all known principles of the science he professes, Dr. Aborn has already succeeded in establishing for himself a wide reputation. His high professional reputation has lost nothing since his advent in the city, as his treatment of the diseases of the eye, ear, throat and respiratory organs has been marked with singularly certain success. Hundreds of our best citizens are adding their testimony to his worth as a physician, and have set forth the success with which he has met in the treatment of all forms of disease.

Evangelical General Conference Proceedings.

Bishop Esher in the chair. The session opened with the usual devotional exercises.

Quite a number of the delegates having left for home, and those remaining being anxious to be relieved, there was less discussion than usual and business proceeded more rapidly.

Rev. J. G. Zinser, of the Ohio Conference, was elected Superintendent of the Orphan Institute located at Tiffin, Ohio, and Rev. L. Scheurman, of the same Conference, as General Agent. Rev. S. Neitz, who, a few days ago, was elected General Book Stewart, handed in his resignation, which was accepted, and the Conference proceeded to another election. Rev. W. W. Orwig, ex-editor of the *Christian Botschafter*, was elected.

NIGHT SESSION.

Bishop Long in the chair. The session opened with prayer by Rev. C. Augenstein, of Illinois.

Agreeable to a request of Dr. Nast, of the M. E. church, a delegation, consisting of three members, was elected to meet the General Conference of the M. E. Church, at its next session, to have an exchange of views respecting a closer union between the two churches. The delegates are: Revs. R. Dubs, T. G. Clewell and R. Yeakel.

Votes of thanks were tendered to such Railroad companies that have furnished free return tickets to the delegates of this body who traveled over their roads.

Also, to the kind friends of Pittsburgh, whose hospitalities they shared during the session of this Conference. A vote of thanks was tendered by a unanimous vote likewise to the Secretaries for their faithful service, and to Mr. Henry Freese, for furnishing stationary for the use of Conference, gratis.

The record of to-day was read and approved, after which the Convention adjourned to meet at Napiersville, Illinois, May 12th, A. D., 1871.

An Explanation.

EDITORS GAZETTE:—The statement of your local reporter, in regard to an outrage in Allegheny, conveys an ungracious insinuation upon a young minister, which I wish to correct.

(1st.) He was called on by other Christian people to aid in taking this outraged woman out of the streets. (2d.) Physicians *were immediately sent for and obtained.* (3d.) The young man gave up his room to this poor creature for the night, and sought quarters elsewhere. (4th.) He sought out and found her parents, who removed her the next morning. (5th.) The young man acted the part of a humane Christian man, and the case was immediately made known to the Professors of the Seminary. (6th.) She remained in the building over night by the direction of the attending physician. I will only add that the risk of being complicated with such cases keeps many Christian people from lending a hand to their rescue. But the Christian Convention, lately held here, has stirred up, among Christian men and women, some zeal for reaching such abandoned cases, and this fallen woman is likely to receive further attention from those who seek to save the lost.

M. W. JACOBUS.

CITY ITEMS.

Furs! Furs! Furs! and Where to Buy Them.

Messrs. Gardner & Stewart, west corner of Market and Fourth streets, No. 69, have now open and for sale, at wholesale and retail, the largest stock in the city, in all grades and qualities, which they propose to sell at less prices than the same goods can be bought elsewhere, also showing a greater variety and entirely new furs. All buyers of furs should remember this, and avail themselves of this rare opportunity to make their purchases.

They are also opening a large stock of new dry goods, most remarkably cheap. West corner Market and Fourth streets, No. 69.

TWS GARDNER & STEWART.

Ready for a large Trade.—The improvements in the well known, extensive and admirably managed grocery and produce house of Messrs J. Kohen & Brothers, No. 69 Federal street, Allegheny City, have been completed and the firm are now prepared to keep pace with the rapid growth of their trade. A stock of choice fresh groceries, teas and produce is kept constantly on hand and retailed or wholesaled to patrons at very reasonable prices. Nothing but the primest articles are kept in store. The retail patronage of Allegheny, Pittsburg and surrounding neighborhoods is invited, while country merchants and retail city dealers will find the stock fully up to their requirements. Packages are delivered to all parts, and carefully shipped by rail or river. Orders by mail will receive prompt attention.

Intermittent.—The diseases of the mouth are intermittent to their nature, and should not be neglected. By using WARD'S FLUID AND POWDERED DENTIFRICE much pain and discomfort will be avoided. It hardens the gums, preserves the teeth, and leaves a sweet breath. Sold wholesale and retail by JOSEPH FLEMING, No. 84 Market street, and all druggists.

Dry Goods at Wholesale.—We invite the particular attention of buyers at wholesale to our complete stock of silks dress goods, and all kinds of fancy and staple goods, and to the fact that we sell at the lowest eastern prices, and cut goods to suit purchasers.

J. W. BARKER & Co.,
59 Market street.

The best place in either city to procure pure and fragrant teas of all known Oriental qualities and brands is at the old established Tea Mart of Joseph A. Robinson, No. 20 Fifth street. Prices reduced since the decline in the European markets.

Ladies Furs.—At the New York hat and fur house, No. 52 St. Clair street.

SIGHT RESTORED.

The case to which we alluded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day called on Dr. KEYSER in person, to thank him for his genius and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher had been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under Dr. KEYSER'S treatment for two months, and before she applied to him, through her brother, Simon P. Fisher, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the facts above stated.

DR. KEYSER:—This is the list of names that I have to your advertisement of the cure of my sister, Christiana Fisher. They were all willing to put their names down and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you, she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you.

SEASONABLE MALADIES.

Medicated Inhalations as a Remedy. By Dr. E. S. Aborn, 136 Smithfield street, Pittsburgh.

SIR: The season is now upon us when, despite every precaution, more or less of our citizens are afflicted with diseases of the throat, chest and air passages. The sudden changes of our climate, illy ventilated apartments, and an atmosphere filled with fine particles of matter thrown out from the hundreds of workshops in our midst, at this season of the year, are all apt to develop diseases of the throat, and a speedy remedy should be sought in order to prevent more serious consequences. The most prevalent form of disease of the throat, Bronchitis, is an inflammation of the mucus membrane lining the air tubes, and when not attended to in time is as fatal as consumption. This disease frequently has its origin in catarrh of the head and nose, which passes into the throat, thence to the larynx and trachea, and finally involves the bronchial tubes. Then, how important is it that the sufferer from catarrh should seek immediate relief, which he can assuredly receive if he consults those who have made the disease a special study. Experience has proved that in all diseases of the throat and lungs there is no remedy so successful as inhalation when properly practiced. Since its first introduction into practice, science and art have combined to perfect the system, so that experienced physicians have no difficulty in determining the possibility of a cure. Slight colds in the head are the milder types of catarrh, which not unfrequently are permitted to take care of themselves until they are developed into a chronic affection, and threaten more disastrous ailments. In the course of my practice in this city, during the last year, I have had under treatment over thirteen hundred cases of catarrh and diseases of the throat—most of them chronic—and that my course of treatment by inhalation and atomization has been uniformly successful, the certificates of the afflicted will attest. Many of these cases originated in what are termed "slight colds," which, had they been properly attended to in their incipiency, need never have become chronic, and thereby jeopardized life and caused great discomfort.

I propose during the coming winter to discuss briefly through your columns the various diseases of the throat and chest, in order that those afflicted in the organisms may determine their condition, and endeavor to point out to them the danger of delay in putting their cases in hands of an experienced physician.

Truly yours, E. S. ABORN, M. D.

Chronic Catarrh and Diseases of the Throat and Chest Cured.

Mr. John Morrison, one of our late worthy grand jurymen, makes the following statement of his speedy recovery from a disease of the head and chest from which he had nearly perished:

I cheerfully make known to the public the speedy manner in which I have recovered from my critical state of health under the treatment of Dr. Aborn, No. 134 Smithfield street. I have been afflicted for several years with catarrh of the head, which at last affected my throat, and soon thereafter my lungs became involved. And also this filthy head accumulation, gravitating downwards, destroyed the functions of my stomach and liver. I was so dyspeptic, and my liver so deranged, that what little food I did eat afforded so little nourishment to the system, that I soon became very much reduced in flesh. I was perfectly miserable. Life afforded no enjoyment. What enjoyment can one find who is afflicted as I was? I have been under the treatment of Dr. Aborn but three weeks, and the remarkable change which has taken place in the character of my disease, in so short a time, is almost incredible. My appetite is fully restored to its former power; I have gained many pounds in weight and am still gaining, and am once more on the road to health, as the result of his peculiar treatment.

The New Theory for Diseases of the Air Passages.

A WORD FROM AN OLD SCHOOL PHYSICIAN AS TO ITS MERIT.

There are many systems of medicine by which we attempt to heal the human body and make it free of disease, ranging from the science of Allopathy down to that of Hydropathy. How far they have succeeded time has abundantly shown, by the number of their failures, as well as by the number and nature of their cures.

In the cure of Pulmonary disease, Dr. Aborn has stepped out of the old beaten track, and adopted a system so simple, direct and natural, as to recommend itself to all who are suffering with catarrh and disease of the lungs, of a character defying cure by any of the old methods of treatment.

Although from childhood I have been raised and also went through a regular course and graduated as an Allopathist, yet a strict love of what is right and best as well as personal benefit received by the new system of atomization, teaches me to bear some testimony to its merits for the benefit of suffering humanity.

HON. F. D. KINNEAR, Attorney-at-law, a resident of Franklin, Pa., suffered from defective hearing, buzzing noises in the head, and discharge from the ears, for nearly twenty-five years, acknowledges his recovery to the skill of Dr. Aborn.

Further Home Testimony—Another Testimonial from W. Wagner, Esq., Cashier of the Morgantown, W. V., National Bank.

W. Wagner, Esq., Cashier of the Morgantown, West Virginia, National Bank, was for nearly five years painfully afflicted with a disease in his head producing frequent copious discharges from his ears, and which almost totally destroyed his hearing. He was induced to place himself under the skillful treatment of Dr. E. S. Aborn, (No. 134 Smithfield street, Pittsburgh, Pa.,) who speedily effected a permanent cure. Mr. Wagner publicly acknowledged Dr. Aborn's great success under date of November, 1866, in which he says: "I have no hesitation in saying that under your treatment I have not only been relieved of my intense suffering, but that I am permanently and satisfactorily cured." The following additional letter has just been received from Mr. Wagner.

MORGANTOWN, W. VA., June 24th, 1867.
Dr. E. S. Aborn No. 134 Smithfield Street, Pittsburgh, Pa.:

DEAR SIR:—I am very happy to inform you that the treatment you gave me in November last, with the medicine you then gave me, and afterwards sent to me from Meadville, has entirely cured my head, and relieved me from deafness, and all those unpleasant sensations from which I suffered when I called at your office, and that my hearing is perfectly restored. When I was in Pittsburgh a short time since, and in conversation with several friends, I told them of my visit to you in November last, and the successful treatment I received at your hands. Many persons in my immediate neighborhood who have noticed the restoration of my hearing, will no doubt call upon you. The gentleman who was suffering with his eyes in this place, about whom I wrote to you, went to Pittsburgh shortly after you left there, and then went to Weston, in this State, where he is now engaged in business. I am told that he lost the use of his eye entirely, and that recently he had the eye ball taken out by some surgeon from Buffalo, who happened to be at Weston. I regret very much that he did not get to Pittsburgh before you left there, as my confidence in your superior skill gives me great assurance that you would have saved his sight. The old gentleman who is suffering from deafness has been to Pittsburgh since you left for the purpose of calling upon you, and regretted exceedingly that he had delayed his visit so long. I shall do myself the honor to call upon you soon, and personally express to you the deep gratitude I feel towards you for the permanent cure which you have effected in my case. Yours, very truly,

W. WAGNER.

TESTIMONIAL,

FROM

Hon. M. C. Beebe,

OF

Pleasantville, Crawford Co., Pa.

Dr. Aborn, No. 134 Smithfield Street, Pittsburgh, Pa.:

DEAR SIR—Some five years ago my son Willie commenced showing symptoms of catarrh of the head, which continued to grow worse until his system was so debilitated as to preclude *all* active enjoyment of the sports of childhood or pursue any system of study, or attend at school, and at times was entirely prostrated with lingering fever—sometimes, for weeks together, with a constant manifestation of the symptoms of the disease such as a constant hacking, nostril discharges, &c.; irritation of the throat, &c., causing nausea. All the usual appliances and treatment of physicians, etc., had failed to afford relief until you were applied to during your professional visit at Titusville last winter, when he began to improve immediately after commencing your treatment, and continued to improve, until now he enjoys a good state of health, and is able to participate in the active sports of childhood with zest, as well as pursue his studies without interruption. I have omitted to make this statement heretofore, as I wished to be satisfied that the relief was permanent.

Respectfully yours,
M. C. BEEBE.

TUESDAY, OCTOBER 29, 1867

THE NOVEMBER ELECTIONS.

One week from to-day elections will be held in Delaware, Kansas, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nevada, New Jersey, New York and Wisconsin. Special interest is felt only in respect to Massachusetts, New York and Kansas.

In MASSACHUSETTS the canvass is being conducted with much vigor. The Democrats and Anti-Liquor Law League have united against the Republicans, and it is anticipated that an unprecedently large number of votes will be polled. Last year the aggregate was 118,751, and this year it is estimated that 150,000 votes will be cast. The coalitionists boast that they have already secured the co-operation of a sufficient number of thirsty Republicans to render their success certain; while the Republicans maintain they are in no danger whatever.

In NEW YORK the Democrats vaunt as extravagantly as they did last year, predicating their jubilant prophecies not only upon the immense majority they expect to obtain in the commercial metropolis itself, but upon the feud existing between the radical and conservative Republicans. It is certain that a vast number of foreigners have recently been naturalized, and that these will about as unanimously vote with the Democrats as the blacks throughout the South do with the Republicans. But these fresh naturalizations do not indicate an absolute increase of Democratic voters during the current year. New York is the great intrepot of this country. Of the foreigners who land there and even make a start, only a small proportion remain permanently or for a long series of years. From thence they scatter to all parts of the country as they may be allured by old acquaintances or enticing prospects. Hence, of the naturalized citizens who voted in the city last year, many thousands have departed and are domiciled elsewhere.

The Conservative Republicans insist they have been badly used by the Radicals. They protest that they resolved in good faith to return to the Republican fold, and by activity and usefulness to regain the confidence they were conscious of having forfeited. Instead of being received with open arms they bitterly affirm they have been sorely repelled, or at least entertained with distrust. The Radicals admit that their bearing towards the Conservatives has not been cordial, and justify their course by lack of evidence that the reformation is sincere. Between the leaders of these factions there is much personal bitterness, the fruit of conflicting ambitions, and of former collisions, and these animosities are constantly intruded into public discussions, to the immeasurable annoyance and disgust of all the sensible men in the nation. In the grand march of events individuals count for almost nothing. The most eminent fall into the grave, and create at most but a temporary ripple upon the surface of affairs. Successors to them instantly appear; the gaps are closed at once, and the world takes less note of its loss than it does of the falling of leaves in autumn. If those leaders of factions would only perceive their own littleness, and deport themselves with reasonable modesty, they would perform the best service to their day and generation they are capable of.

The Radicals insist they will carry the State, and by a handsome majority. They are certainly putting forth vigorous efforts, especially in the central, northern and western sections of the State, where their great strength is.

In KANSAS the canvass derives its peculiar interest from the interjection of the questions of black and female suffrage. Both these points have been debated with earnestness and ability on both sides. Indeed, the argument has been so full that it may accurately be said to have been exhausted. There seems to be an appropriateness in making this State the theatre for this discussion. The cradle of its infancy was rudely rocked by a contention under which the whole nation reeled, and which culminated in the rebellion. By this early discipline its population was inducted into the processes of sharp analysis, and habituated to following their moral instincts in the face of fiery opposition.

THE PRESIDENT AND HIS FRIENDS.

In this country the party that is out of power uniformly charges the party entrusted with the administration of the government with corruption in the application of public moneys. To a certain extent, these charges are valid; that is to say, all parties are cursed with dishonest adherents, who manage to acquire influence, and to foist themselves into positions of responsibility and trust, which they abuse for their own enrichment. This was doubtless the meaning of Ex-Governor SEYMOUR of New York in a remark he lately made, to the effect that if the Democrats were now in power they would be found equally as corrupt as he believed the Republicans to be. This is but another form of stating the proposition that corruptionists belong to neither party, but constitute an abominable confraternity, acting with all parties, and true to nothing but their instinct for plunder.

Corruption in the management of governmental affairs dates back to the first organization of civil society, and has followed the flow thereof down to the present time. It is not peculiar to one age, or one country, or one form of government, more than to another. It exists in all countries, in all ages, and under all sorts of administration. Passing from our democracy into imperial France, we find the reigning family, in all its branches, enjoying boundless wealth, and displaying the most ostentatious extravagance. When the head of this family attained the Presidency of the French republic in 1848, he was so much a pauper that he had been living for many years mainly upon the bounty of friends. His case was not essentially different from that of most of his lineage. This vast change, from then to now, has been effected by the appropriation of public moneys to private uses. It does not matter that these conveyances have been made under cover of what are called laws by courtesy. The fact remains, and cannot be successfully disputed.

It has happened in the United States that up to the death of Mr. LINCOLN no President has given occasion for accusation against his personal honesty; least of all for a well grounded conjecture that he was making a shameful traffic of the offices within his gift. Several of Mr. JOHNSON's predecessors retired from office in honorable poverty. In their declining years they were supported by family friends, or were enabled to subsist by governmental provision, made in the delicate form of purchasing their books and manuscripts for the Congressional Library. Those of them who retired with competencies or fortunes acquired them either by inheritance or the discreet management of private concerns before they reached the presidential office.

A few days ago documents appeared in the public prints, the authenticity of which has since been confessed, proving that applications to the President for offices were referred by him to certain unofficial and irresponsible individuals; that they demanded large sums of money down, and the payment of other large sums to be secured, as conditions precedent to the appointments sought. Now, it is possible that these transactions were carried on unbeknown to the President, and without his sharing in the plunder so obtained. But the evidence so far elicited raises a strong presumption that this corruption was organized into a system, and that the persons to whom the applications were referred acted in the capacity of authorized brokers.

So, too, recent developments in this city, bear the same aspect. It has been established by testimony duly taken, that offices have been sold, and that large sums of money have been raised by this traffic. How this money was divided has not been disclosed. If it was retained exclusively by persons who acted as brokers they clearly made a profitable business of it. But, it seems probable, from a consideration of all the circumstances, that a partition of the spoils was made according to an understanding entered into at the beginning.

Are these out-cropping facts exceptional? Or may they be taken as indicating a general condition of affairs, which extends into all parts of the republic? These are inquiries that cannot be evaded or shoved aside. The public welfare demands that they be prosecuted in an authoritative shape, and with a thoroughness that shall probe the matter to the bottom.

LITERARY GOSSIP.

PROF. DE MILLE is a Nova Scotian.

WILLIAM SHAKSPEARE has sold his interest in the *Gazette*, of Kalamazoo, Michigan.

THE author of "John Halifax" is contributing pleasing sketches for "Our Young Folks."

FLORENCE MARRYATT is about to publish her story which is now running as a serial in Temple Bar.

REV. DR. MUHLENBURG is in his seventy-second year, and has been a pastor nearly half a century.

"COUSIN TRIX and Her Welcome Stories" is the title of a new book in press by Georgeana M. Craik.

DICKENS repents. He thinks his silence about the Yankees during the past twenty years is ample attonement for his early faults.

THE "Fat Contributor," A. M. Griswold, has made fifty engagements for the forthcoming lecture season, and is anxious to make more.

A SUBSCRIBER to the London *Times* has read that paper since it was started. He is now an hundred years of age. If patience is rewarded he will get to heaven.

J. B. LIPPINCOTT & Co., of Philadelphia, propose to publish a new first-class magazine of literature, science and education, the first number to be issued in January next.

THE Queen of Spain denies that she is writing a book, and feels scandalized at the rumor to that effect. Can it be possible that she wants to set her queenly neighbor Victoria a good example.

MANTON MARBLE, the editor of the *World*, began his newspaper life by writing a two column criticism of Forrest's "Lear" for the Boston *Traveler*. He now controls the political and journalistic course of the *World*, and is generally supposed to own at least a quarter interest in that newspaper.

MR. ROBERT BROWNING is furnishing the press with quite an amount of food for gossip. First of all, we hear it reported that he is about to marry Jean Ingelow. This is quickly followed by the account of a meeting of Spiritualists, where the ghost of Mrs. Browning No. 1 loudly protested against the proposed marriage. Now we hear of a new poem from the gifted pen of the poet, consisting of fifteen thousand lines, in which he will discuss some of the most interesting and puzzling social problems of the day. The New York *Times* does not know what advantage the poetical discussion of these problems can confer on anybody, but proposes that Mr. Browning be employed to put the *Congressional Globe* into rhyme as something solid enough for any poet.

FARM, GARDEN AND HOUSEHOLD.

Feeding Horses and Oxen.

Nature has provided some animals with two receptacles to store away their food; these are the ruminants, such as the ox, the deer, rabbit, etc. The one receptacle is intended to receive the food as it is taken, in its half masticated condition. This is usually stored away—an ox filling his first stomach in a short time. Then, time is required to bring this back and reduce it to a condition for digestion. This occupies a long time; and the night is often the only space allotted to working cattle to perform this operation, in which case there must be consequent suffering and falling away in flesh—for the night is not sufficient time—or, if sufficient, is the time for rest. There must be chewing the cud during the day. Regular feeding, with proper intervals for mastication, are indispensable to the health and working condition of the ox. All ruminants require this.

The horse requires different treatment. His food must be thoroughly masticated at first, as it goes through this process but once. Still, the horse has the advantage over the ox. What food the horse gets will benefit him, let him be worked hard or otherwise. The ox will not be benefited a particle unless he is permitted to masticate his food; and he will not be permitted if he is worked constantly during the day. A hard master will soon use him up. Give him his standing spells—or, better, let him lie down. This will save him; a great deal of work can be gotten out of him in this way.—*Valley Farmer.*

AMONG the appliances of domestic economy at the Paris Exhibition is the "Norwegian automatic cooking apparatus," by which meat and other food, after having been boiled for five minutes, may be cooked completely in three hours without artificial heat of any kind. The apparatus consists of a box lined with non-conducting materials, and two tin cases, in which the food to be cooked is placed, boiled for five minutes over a gas or other stove, and then inserted in the box and hermetically shut in with a cover also lined with isolating substances. When the box is opened three hours afterwards the contents are found completely cooked, without care or attention having been needed. The box may be moved about, carried by hand or otherwise, during the operation. The whole process is practically exemplified in a small shed near the Gustava Wasa house, where saucepans containing meat are put in raw and taken out cooked at different hours of the day.

SWEET TOMATO PICKLE.—Will you please to reprint, for the benefit of your readers, the following, which I have found by repeated trials to be the best receipt of the kind that has yet met my notice: Slice one gallon of green tomatoes and put a handful of salt to each layer of tomatoes. Let them stand twelve hours, then drain off the liquor and add to them two green peppers and from two to four onions, sliced. Take two quarts strong cider vinegar, a little more than one-half pint of molasses, and two tablespoonfuls of whole mustard, and a teaspoonful of allspice, same of cloves, and heat until it begins to boil. Then put in tomatoes, onions and peppers, and let them boil ten minutes. Pour them into a stone jar and seal tight, and put them in a cool place for a fortnight; after which they will be ready for use, and will keep a year without scalding.

THE San Antonio *Express* scolds the Texan farmers for neglecting the hay crop. It says: "Western Texas is throwing away the finest hay crop in the United States, this season. Millions of dollars worth of hay now ready for the mowing machine and no one to gather it. The only hay made is to sell to city stables or to the government. * * * "We have been recently into one of the finest grass regions of the world, where with mowing machines and hay presses hundreds of thousands of dollars worth of hay could be put up, which would command as high, if not a higher price, than the best eastern article. This hay could be pressed into five hundred pound bales, shipped to the coast in the empty wagons going for freight, and from there to New Orleans and New York. The hay crop of Texas if put into market would bring more than our cotton."

PRESERVING TOMATOES.—A correspondent of the *Scientific American* says he has tried the following method of keeping potatoes for years with complete success, though in some instances the tubers were diseased when taken out of the ground: "Dust over the floor of the bin with lime, and put in about six or seven inches deep of potatoes, and lime as before. Put in six or seven inches of potatoes and lime again; repeat the operation until all are stored away. One bushel of lime will do for forty bushels of potatoes, though more will not hurt them, the lime rather improving the flavor than otherwise."

GRAPE SOILS.—Dr. J. A. Warder, alluding to grape soils, states that it is the very common opinion, after many years' experience, of those who have been eminently successful in the culture of the vine, that the clay cannot be too hard and compact for the roots of the grape to penetrate. Among the plants which are an indication of good grape lands is the blue grass or *Poa Comepessa*, which always takes possession of such clays, particularly if they contained lime.

PRESERVATION OF EGGS.—*Le Betier* (a Parisian paper) recommends the following method for the preservation of eggs: Dissolve four ounces of beeswax in eight ounces of warm olive oil; in this put the tip of the finger and anoint the egg all around. The oil will immediately be absorbed by the shell, and the pores filled up with the wax. If kept in a cool place the eggs after two years will be as good as if fresh laid.

DRAIN some oysters through a seive, beat up two or three eggs, have ready some grated bread crumbs, sprinkle some salt and a little pepper over the oysters, then dip each oyster in the egg, and cover them with bread crumbs; have the pan clear and hot, and put an equal portion of lard and butter into it, and when it boils lay in the oysters carefully. They require close attention to prevent either too much burning or to much cooking; and as they are cooked lay them near the fire on a soft cloth to drain. Serve very hot. Care must be used that the fat does not burn.

SAUSAGE.—Housekeepers will do well to preserve the following first-rate receipt for sausage.—"To every twelve pounds of meat take three tablespoons of salt not much heaped, three tablespoons of black pepper, eight tablespoons of sage and a teaspoon half full of red pepper."

A FAT cow of Durham grade was recently slaughtered in London, which weighed, when killed, 1,950 pounds, and yielded 340 pounds of rough tallow.

PROF. TURNER, of Jacksonville, Ill., received, last year, $100 for grapes growing on an elm tree. Four years he tried to prevent the vine from going into the tree.

IT IS reported that an agricultural society, somewhere in the State of New York, offers larger premiums for butter and cheese than it does for horse-racing.

THE blueberry crop of Maine, this year, is estimated at about a half a million quarts, and the marketed berry crop of the State from wild vines will put up at least $100,000 in the pockets of Maine people.

THE grape crop along the lakes is good, but on the Atlantic coast from Maryland to Massachusetts there is great complaint of the fruit being late and much injured by the rot, in consequence of the unfavorable season.

—The following statement is made in a letter just received in Boston from a missionary in Southern India: "A considerable theft has recently taken place at the Menatches Temple in Madura. Probably you already know the last ceremony performed every night at the Temple is the carrying with noisy music the image of the god to the so-called bedroom of the goddess. The first ceremony in the morning is the restoring of it to its place. Close to this bedroom is the treasury, which contains the money and jewels accumulating from ancient times. Thieves, who are said to be no other than the Temple servants themselves, making a hole in the innermost wall, which incloses the treasury, had access to the massive money chest within, and, burning down its bottom with oil rags, took therefrom, so far as their hands could reach, thirty-seven bags, which are equal to 37,000 rupees; and all this without disturbing in the least the profound rest of the god and goddess."

MALARIA EVERYWHERE.

Rarely has there been a season as fruitful as this of malarious diseases. Not only on the prairies and in the valleys of the west; not merely in all the old haunts of fever and ague and bilious remittent fever have these prostrating diseases been unusually virulent; but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thousands of people supposed to have been placed, by the laws of nature, above their reach. Hence we are compelled to admit that a fatal element pervades the universal air this season, and should at once resort to the only approved preventive of its consequences HOSTETTER'S STOMACH BITTERS, a tonic so potent, an anti-septic so perfect, an alterative so irresistible, and a stimulant so pure that it enables the system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incombustible garments might move among blazing buildings, the man who arms himself against malaria with this powerful defensive medicine may walk a fever-scourged district fearless of its insalubrious atmosphere. The intermittents and remittents at present so general in all parts of the country may be but the forerunners of a deadlier scourge now on its way westward from the far east. Prepare the system with HOSTETTER'S BITTERS for a successful battle with the mephitic causes of all epidemics. Be wise in time.

BLIND EYES RESTORED.

The case to which we alluded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day called on DR. KEYSER in person, to thank him for his genius and skill in restoring her TO ENTIRE AND PERFECT SIGHT. Miss Fisher had been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like hers are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under DOCTOR KEYSER'S treatment for two months, and before she applied to him through her brother, Simon P. Fisher, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the facts above stated.

OFFICE OF THE AKRON IRON CO.,
Akron, July 12th, 1867.
Mr. Robt. C. Totten, Pittsburgh, Pa.—Dear Sir: We have had a pair of your patent grooved chill rolls in our use for the last six months, and find them of a superior quality. The iron finished on them is of a smooth, even surface, and free from scales, and I consider them in all respects of great advantage, making better iron and of less expense, in consequence of requiring less dressing.
Yours truly,
BENJ. GROSVENOR, Sup't.

PITTSBURGH STEEL WORKS,
ANDERSON, COOK & CO., Manufacturers of all Descriptions of Steel,
Corner of Ross and First streets,
PITTSBURGH, Sept. 7, 1867.
Mr. Robt. C. Totten—Dear Sir:—The grooved chilled Rolls which we procured from you about a year since have proved to be a perfect success. There is a great saving in dressing over soft Rolls, and give a much better finish to the Steel. We consider them indispensable.
Your truly,
ANDERSON, COOK & CO.

BLACK DIAMOND STEEL WORKS,
PARK BROTHER & CO.,
PITTSBURGH, Sept. 18, 1867.
Mr. Robt. C. Totten, Pittsburgh—Dear Sir:—In reply to your inquiry in relation to your new patent grooved Chill Rolls, we have to say that having used a number of them, we find they answer our purpose admirably. We are now using a pair of 16-inch grooved Chill Rolls, the last pair you made for us. These Rolls are used for finishing large rounds, and enable us to obtain such a finish upon our Steel as could not be had with the use of the ordinary grooved Rolls. The saving in turning your Rolls ready for use, is fully one-fourth less than is necessary when plain Chill Rolls have to be grooved in the turning lathe, whilst the advantage gained with your grooved Chill Rolls is, that the whole surface of the groove is uniformly hard, requiring not over one-half the work that is usually needed in dressing the ordinary grooved Rolls. We believe you have gained a great point in producing a grooved Chill Roll, an article that has long been needed by the manufacturers of Steel and Iron, to enable them to produce an article with a good finished surface.
We take pleasure in recommending manufacturers of Steel and Iron to give your grooved Chill Rolls a trial.
Respectfully yours,
PARK BROTHER & CO.
We think we are warranted in believing that they will eventually take the place of Soft Rolls, especially for Rounds and Squares.
All orders promptly attended to.

AUCTION SALES.

BY SMITHSON, PALMER & CO.

DESIRABLE RESIDENCES AND SITES FOR COUNTRY HOMES, AT EDGEWOOD STATION, AT AUCTION.—On THURSDAY, October 31, at 2 o'clock p. m., on the premises, will be sold the following described lots of ground, in plan as laid out by John Grozier, Esq., adjoining properties of John S. Love and J. Swisshelm, Esq., Hon. J. Hampton, and heirs of William Wilkins, at Edgewood Station, on line of Pennsylvania Railroad, near Wilkinsburg:
One Lot, containing one acre, fronting on Pennsylvania avenue, (on Railroad,) enclosed with neat picket fence, and within 200 feet of station house, on which is erected the residence of John Grozier, Esq., a two-storied frame dwelling of seven rooms, neatly papered and painted throughout, having front, side and rear porches.
One Lot on Franklin avenue, containing four acres and eighteen perches on which is erected a comfortable and convenient Gothic frame house of twelve rooms, marble mantels in parlor, papered, painted and finished in neat style.
Two Vacant Lots, of one acre each, fronting 200 feet on Pennsylvania avenue and Railroad, and on Franklin avenue 100 feet.
And seven one acre Lots, on Race and Vine streets, which will be sold entire or in lots to suit purchasers.
The situation of the property is a delightful one, Edgewood being one of the most flourishing villages on the line of railroad. All the accommodation trains stop at the station, and a new station house is to be erected early next spring. There are schools, churches, &c., within easy access, and residents can have all the pleasures and comforts of country life.
Terms on improved property, one-half cash; unimproved, one-third cash; balance in five equal annual payments, with interest, secured by bond and mortgage.
Plans can be seen at the office of
SMITHSON, PALMER & CO., Auc'rs,
oc26 55 & 57 Fifth street.

VALUABLE CITY PROPERTY.
SITES FOR PRIVATE RESIDENCES,
On Ridge St., Allegheny City,
AT AUCTION.
On SATURDAY, November 2d, at 2 o'clock p. m., on the premises, will be sold, the very valuable vacant lot of ground fronting 300 feet on Ridge street, extending along Tremont street 200 feet, and adjoining properties of Alfred Patterson and A. McFarland, Esqs. The situation of the property is one of the finest in Allegheny City, the surrounding improvements being of such a character as to render a home in the neighborhood very desirable for business men engaged in either city, being accessible by cars on lines of Rebecca street and Western avenue Passenger Railways. If not disposed of entire, will be subdivided into 4 lots of 75 feet front each on Ridge street.
Terms—One-third cash, balance in one and two years, with interest, secured by bond and mortgage.

FIFTH WARD—PENN STREET PROPERTY—5 LARGE LOTS and BRICK MANSION.—On THURSDAY AFTERNOON, November 7th, at 3 o'clock will be sold, on the premises, eight very valuable large size lots in a sub-division of the German Catholic High School property, (lately the mansion and grounds of Pollard McCormack, Esq.,) situate in the Fifth ward, on Penn street, between Adams and Mechanic streets, being—
Two Lots, each 21 feet 10½ inches front on Penn street, and extending in depth 120 feet, whereon is that large, substantial and well built three-story brick mansion, No. 587 Penn street, containing wide halls throughout and large double parlors, dining room, kitchen, bath and wash rooms on first floor; four large rooms on second floor; six rooms on third floor, and large dry cellars and vaults, with heating furnace, gas and water throughout the house.
Two adjoining vacant lots on Penn street, the same size as above.
Four lots each 20 feet 10½ inches front on Pike street, in immediate rear of the above lots, and extending to rear of the Penn street lots, 100 feet in depth, on one of which is a large brick stable.
Terms—One-third cash, balance in one and two years, with interest.
oc26 A. McILWAINE, Auct'r.

FOUR BRICK HOUSES AND LOT, corner of Cherry and Plum alleys, near Liberty street.—THURSDAY MORNING, Oct. 31st, at 10 o'clock, will be sold, on the premises, corner of Cherry and Plum alleys, [illegible] a valuable corner lot, 38 feet front on Cherry alley and 60 feet in depth along Plum alley, whereon are erected two 2-story brick dwellings, with basements, fronting on Cherry alley, and one 3-story and one 2-story substantial brick buildings, on Plum alley, suitable for workshops, factory, or to be finished as dwellings. The desirable situation of this property will always make it appreciate in value.
Terms of sale—One-third cash, balance in one and two years, with interest.

AN ORDINANCE relative to Pittsburgh, Allegheny and Manchester Passenger Railroad.

SECTION 1. *Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby ordained and enacted by the authority of the same,* That permission be and is hereby granted to the Pittsburgh, Allegheny and Manchester Railway Company to extend their railway along Ohio avenue, from the corner of Bidwell street and said avenue to Allegheny avenue, and thence down said Allegheny avenue to Western avenue; provided nothing herein contained shall in any manner invalidate the contract now in force between the city and aforesaid Railroad Company.

SEC. 2. That the said Company shall keep clean that portion of the streets through which said railway may pass, and in perpetual good repair from curb to curb, subject to the direction of the Recording Regulator, with the privilege of appeal to the Committee on Streets, whose decision shall be final.

SEC. 3. That so much of any ordinance as is altered or amended by this ordinance be and the same is hereby repealed.

Ordained and enacted into a law this the 24th day of October, A. D. 1867.

JAMES McBRIER,
President of Select Council.
Attest: D. MACPHERSON,
Clerk of Select Council.

THE COURTS.

Supreme Court.

MONDAY, Oct. 28.—Present, all the Judges except Chief Justice Woodward.

Charles White and William Doyle vs. the Commonwealth; Erie county. Sentences reversed and set aside and *habeas corpus* ordered to be issued to Dr. Campbell, Warden of the Western Penitentiary, to bring before the Court the bodies of White and Doyle at ten a. m. to-morrow, with commitment or cause of detention in each case, to be dealt with according to law. Opinion by Thompson J., as follows:

"The indictment on which the plaintiffs in error were tried, and found guilty, was for larceny, but the sentences pronounced were for burglary and larceny, four years and six months in each case in the Western Penitentiary. The extent or limit of imprisonment on a conviction of larceny is three years; there was therefore an excess of one year and six months in each of these cases beyond what the statute allows. The minute docket, in which the indictment appears erroneously entered as burglary, undoubtedly misled the learned Judge, who took it as correct without adverting to the indictment. The sentences being erroneous, must be reversed, and we will send for the prisoners and sentence them according to law, as we have full authority for doing, in a case of this kind, by the act of June 16th, 1836, sec. 1st, which is nearly a transcript of the old act of 1722, defining the powers of the Court."

J. Ross Thompson for White and Boyle, and C. M. Lynch, District Attorney, for Commonwealth.

Grove vs. Hodges; Huntington county; Middle District. Argued by Joshua W. Crowley and John S. Miles for plaintiff in error and John Scott and R. Bruce Petriken contra.

The list for Westmoreland, Armstrong, Indiana, and Cambria was called over.

The following cases were non-prossed: Wentling's admr vs. Irwin, Westmoreland; Cooper & Co., vs. Wike et. al. Cambria; M'Colgan vs. Myers, Cambria; Shoaff et. al. vs. Tintsman, Westmoreland

The following cases were continued: O'Donnell vs. Allegheny Valley R. R. Co., Armstrong; Freeport borough vs. Marks, Armstrong; Shirley vs. Shirley, Indiana.

The following opinions were rendered:

By Thompson J.—Jefferson Co. vs. Reitz; affirmed.

Hunter vs. Pettis; Crawford; affirmed. Cleveland vs. Farran; affirmed.

By Strong, J.—Stiver's appeal; Jefferson; decree affirmed at appellant's costs.

Siegel et al. vs. Robinson; Erie; judgment affirmed.

Hart & Wright vs. Borough of Girard; Erie; judgment reversed and *venire de novo* awarded.

Venango National Bank vs. Taylor; Venango; judgment reversed and judgment entered for plaintiffs for the sum of $35,034, according to the case stated.

By Read, J.—Erie Gas Company vs. Haverstick; Erie. Affirmed.

By Agnew, J.—Thompson vs. Clark; Erie. Judgment reversed and procedendo awarded.

Yates vs. Meadville borough, Crawford. Judgment reversed and procedendo awarded.

Court adjourned till nine o'clock Tuesday morning.

District Court—Judge Williams.

MONDAY, Oct. 28.—This Court met at the usual hour, ten o'clock.

Albert Torrence vs. W. D. Hamilton. Action on a covenant. Plaintiff leased to A. Kirkpatrick four rooms on second story of building at the corner of Market and Fourth streets, for one year from January, 1866, with privilege, &c., the rent to be paid quarterly in advance, for which the defendant became security. The lease was offered in evidence, and objected to, because it was not properly stamped, but the objection was overruled. Defense offered to prove that Kirkpatrick, the lessee of the premises, had, at all times during his occupancy of the premises, sufficient goods on said premises liable to distress to answer plaintiff's claim for rent. Objected to as incompetent and irrelevant. The Court sustained the objection, holding that the defendant's undertaking was absolute, and that the plaintiff was not bound to proceed against the tenant before resorting to the defendant to make good any deficiency. Verdict for plaintiff for $106—full amount of claim with interest.

Philip Sparr, Hiram Carr and Solomon Byerly vs. Alexander McClintock. Action to recover amount of bill for lumber furnished, eight hundred and fifty-one dollars. Juror withdrawn and judgment confessed in favor of plaintiffs for the sum of $625.

James Smith vs. Pittsburgh, Columbus and Cincinnati Railroad Co. Action for damages. On June 7th, 1866, at a cut about three-fourths of a mile west of Walker's Mill, this county, plaintiff's son, Oscar J. Smith, aged thirteen years, was killed by a collision alleged to have occurred through the carelessness and negligence of defendants' employees or agents. The deceased boy was in the employ of the railroad company, having in the first instance, as alleged, been employed against the wish of his father, and subsequently the father endeavored to have him discharged, but without success. On trial.

Following is the trial list for this day:

12. Fawcett & Co. vs. Jas. K. Lanahan.
48. Thomas H. Gibson vs. Andrew Morton.
51. Head & Metzgar vs. R. S. Hunt et. al.
52. Ex'rs of Jos. Wainwright vs. H. W. Buffum.
55. John Bennett vs. John Rudge.
56. F. H. Ditman & Co. vs. Miller & Erdner.
57. Robt. Cheltham vs. Adam Kirber.
58. Same vs. Hiram Fulton.

Quarter Sessions—Judge Stowe.

This Court met at the usual hour Monday morning.

CASE CONCLUDED.

The case of the Commonwealth vs. Fanny Splane, indictment keeping a disorderly bawdy house in Miltenberger's alley, taken up on Friday last, was proceeded with and concluded, the jury finding a verdict of guilty. Sentence deferred.

DIFFICULTY ABOUT A LINE FENCE.

Cross bills for assault and battery were next disposed of. Zaccheus Scott, Jr., and George Dawson were prosecuted by Robt. Douglass for assault and battery, and Robt. Douglass and his son, James Douglass, were prosecuted by Zaccheus Scott for assault and battery. The parties are neighbors, residing in Elizabeth township, and had a difficulty on the 31st of May last, about a line fence, when the violence mutually complained of took place. Verdict of guilty as to Scott and Dawson, and not guilty as to the Douglasses, prosecutor, Scott, to pay costs.

DISORDERLY HOUSE AND FORTUNE TELLING.

David Martin, Mary Martin and Robert Baldwin, the latter colored, were arraigned upon an indictment charging them with keeping a disorderly house and with fortune telling. John Stemler, constable of South Pittsburgh, was the prosecutor, and testified that the defendants resided on the Brownsville road, near South Pittsburgh; that the parties kept a house which was the resort of idle and disorderly persons. It was also given in evidence that the colored man, Baldwin, or Bob McGonnigle, as he was called by some, told fortunes with cards. On trial.

United States District Court.

Before Judge McCandless.

John L. Weylaw plead guilty to carrying on the business of a retail dealer without license, and was sentenced to pay a fine of ten dollars and costs.

United States vs. Three barrels of whiskey *et alia*, owned by Robert Paige. Monition issued, returnable on the 13th of November.

The O'Hara bankruptcy case continues on trial.

Common Pleas.

MONDAY, Oct. 28.—There were no trials in this Court.

Following is the list for this day.

God Help the Poor.

All of the signs, say the weatherwise, go to prove that the approaching winter will be one of extraordinary severity. These signs are not always to be relied upon, however. The crops in many parts of the country have been unusually good, and though injured in Eastern Pennsylvania and New Jersey by too much rain, and in this and other parts of the country by too little, we think that upon the whole they may be considered full and sufficient; if they are not, and the winter should really prove excessively severe, the poor must suffer fearfully. Already we hear something of this sort from the neighboring States. A woman was brought before the Police Court, in Chicago, on Thursday, in a destitute condition; her clothes were fearfully insufficient even for the present comparatively mild weather, and her face told a mute tale of horrors which confirmed the utterance of her tongue. Her husband is in the Penitentiary, and she and her children were actually starving, literally without a crust and destitute of the means with which to buy food. This is not a solitary case, and although we have heard of none so bad in our own city, there may be such, and there certainly is much destitution. This is the season when the various benevolent societies go into operation, and they should be liberally supported by all good citizens accordingly as God hath blessed them.

Police Items.

The police magistrates of the city are not having a heavy press of business just now, and for the welfare of both citizens and city, we devoutly wish for a continuance of this state of affairs. In our rounds yesterday we found the following cases:

BREACH OF PROMISE.

Rachel C. Hixon made information before Alderman Donaldson, yesterday, against Z. H. Palmer, charging him with breach of promise and affiliation. The defendant was arrested, and after a hearing was committed for trial in default of $700 bail for his appearance at Court.

ASSAULT AND BATTERY.

John Bleakway yesterday made information before Alderman Taylor against William Hahn, in which he alleges that Hahn committed an assault and battery upon him by striking him with his fist. The prosecutor resides on Webster street. A warrant was issued for the defendant.

Hannah Bowman appeared before Alderman McMasters yesterday, and charged her husband, George Bowman, with assault and battery. It appears that Hannah is a native of the "Emerald Isle," while her better-half is a "Johnny Bull," and the national troubles have crept into this once happy family, creating discord and anarchy where happiness and love once reigned supreme. Hannah alleges that George is fond of his whisky, and that when he gets an overload of it he endeavors to work it off by beating her; that on Saturday evening he came home drunk, and because she asked him for money to provide something to eat for Sunday, he gave her a "baten." She had been pretty roughly handled, from her appearance, as one eye was "in mourning," and she had several bruises on her face and arms. George was arrested and held for a hearing.

SURETY OF THE PEACE.

Albert Michael yesterday made information before Alderman Strain against Robert Manel for surety of the peace. The parties reside at Glendale Station, on the Pittsburgh, Ft. Wayne and Chicago Railroad. The prosecutor alleges that the defendant treatened to "break every bone in his body." A warrant was issued for the arrest of Manel.

FALSE PRETENCE.

Thomas Dardis, a clerk at McKeon's livery stable, yesterday made information before Alderman McMasters, against Patrick Vaughn, charging him with obtaining the use of a carriage under false pretence. A warrant was issued for his arrest.

AFFILIATION.

Philomena Bruner appeared before Alderman Mullin, of Allegheny city, yesterday, and made information against William Rost for affiliation. The prosecutrix resides in the Fourth ward, Allegheny. A warrant was issued for the accused.

Chief Justice Woodward, who has been absent so far during the sitting of the Supreme Court in this city, is expected to arrive to-day.

SWORD'S SELF-TEMPERING

STEAM POWER

BRICK MACHINE,

MANUFACTURED BY THE

PITTSBURGH BRICK MACHINE

AND

BRICK MANUFACTURING CO.

This Machine takes the clay direct from the bank, (without the preparation, by soaking, necessary for "soft mud" machines,) and tempers it thoroughly, pressing in steel moulds, brick stiff enough to be packed up eight high in the yard as made. For cutting with the trowel, bearing hard usage, and making a strong, true wall, there are no better brick known. The cost of making them by this machine is from 95 cents to $1.10 per 1,000, according to the rates of wages. The machine is built entirely of iron and steel: and in the best style for strength and permanent use in working clay. Apply for circulars, giving full information, at the office,

JAMES BOWN,

au6:w4:TT 136 Wood street.

FOR SALE—REAL ESTATE.

FOR SALE—The best Farm in Fairfield township, Westmoreland county, Pa., containing about 250 acres, situated six miles south of the Pennsylvania Railroad, at Bolivar Station. The improvements are a large hued log house, with nine rooms, a good cellar; a frame bank barn, 40x75, with the best of stabling. Two apple and one peach orchard. The whole farm is under a high state of cultivation; the fencing is all No. 1; the soil is good, and is well watered; about 200 acres cleared, the remainder in good white oak timber. This property is offered at the low price of fifty dollars per acre. Possession immediately.

Also, a valuable Garden Farm, containing 80 acres, situated in Elizabeth township, Allegheny county, Pa., on the Youghiogheny river, and near Elrod's Station, on the Connellsville Railroad, about nineteen miles from the city. The improvements are a two-story brick house with six rooms, hall running through the house, with cellar; a No. 1 barn and other outbuildings. Abundance of the best fruits, of all varieties. Churches, Schools and Mills very convenient. Persons wishing to engage in gardening would do well to call and purchase quickly.

Also, a Farm of 213 acres in Penn township, Westmoreland county, 120 acres cleared and under cultivation, 92 acres of first-rate white oak and other timber, 2 dwelling houses, 1 of them 2 stories, the other 1 story, with a tenant house, with a first-rate Steam Sawmill in good running order; young orchard of grafted fruit. The land is rolling; every acre is tillable, with limestone soil and subsoil, with never failing springs; within one hundred rods of the Penna. Central Railroad; 28 miles east of Pittsburgh, and three miles west of Greensburg. This farm is pleasantly and eligibly situated in a good neighborhood; every acre is underlaid with good coal. The title is good.

Also, a Farm of 82 acres in Elizabeth township, Allegheny county, Pa., near the line of the Pittsburgh & Connellsville Railroad. Improvements are a log house, weather-boarded; frame bank barn, orchard of fifty bearing apple trees, &c. This property will be sold cheap.

Also, 96 acres in Derry township, Westmoreland county, Pa., within four miles of Blairsville, and three miles of two stations on the Pa. R. R. The improvements are, a new frame dwelling house and outbuilding; a new steam saw and grist mill, with two run of burrs, two bolting cloths, and all the necessary fixtures, and a young orchard of choice fruit trees. The whole tract is underlaid with a six foot vein of coal, now opened, and an abundance of limestone. This property will be sold very low, if applied for soon.

CITY AND SUBURBAN.

CITY COUNCILS.

The Pittsburgh City Councils held a regular monthly meeting Monday evening, October 28th.

Select Branch.

Members present: Messrs. Armstrong, Brown, Coffin, Crawford, Dickson, Gallaher, McCarthy, M'Ewen, M'Millan, Morrow, Phillips, Tanner, Thompson, White, Wilson and M'Auley, President.

The minutes of the two preceding meetings were read and approved.

PETITIONS AND COMMUNICATIONS.

President McAuley presented a communication from Richard Edwards enclosing duplicate tax receipts for city taxes which he said he had through some unaccountable means paid, one of which he thought was wrong, $8,81 of which was paid to Mr. Patterson and $2,60 to Allinder. Referred to the Finance Committee.

Mr. White presented the bill of Willis, Alward & Co., to Council Chamber, amounting to $10.00, accompanied by a resolution authorizing its payment. Accepted and resolution adopted.

Mr. McEwen presented a petition from citizens residing on Rose street, in the Seventh ward, asking that the same be opened from Overhill to Devillers street, which was accompanied by an ordinance providing for the opening of the same, and appointing David Sims and James McCabe viewers. The ordinance was read twice, and on motion of Mr. Morrow was laid over for one month and ordered to be published once in the city papers.

RESOLUTIONS, &C.

Mr. Thompson offered a resolution authorizing the erection of a gas lamp on Hancock street. Adopted.

Mr. Brown offered a resolution authorizing the Water Committee to receive from the Pennsylvania Railroad Company $16,888.98, to be expended in laying a water pipe, of greater capacity, on Liberty street, which sum is to be repaid to the Company from the water rents accruing to the city from said Company. Adopted.

Mr. McEwen offered an ordinance providing for the change of the names of Fountain, Prospect and Bedford streets to Bedford avenue. Read three times and passed.

Mr. McMillan offered a resolution providing for the erection of a gas lamp at the corner of Centre avenue and Dinwidie street. Referred to Gas Committee.

Also, a petition from Mr. Zug asking permission to erect a bridge on Etna street.

On motion of President McAuley, as amended by Mr. Armstrong, the petition was granted, provided the grant did not extend over the time given, and that the petitioner be responsible for all damages arising from the same.

Mr. McMillan offered a resolution providing for the erection of two gas lamps on Bedford and Gum streets. Adopted.

COMMUNICATION FROM CONTROLLER.

A communication from the City Controller was read, inclosing sundry bills, and recommending the transfer of a number of appropriations, accompanied by a resolution authorizing the payment of the bills, and providing for the transfers as suggested. Adopted.

WHARFAGE.

Mr. Morrow presented an ordinance providing that the rates of wharfage on all steamboats landing at the Monongahela wharf, making two trips per week, shall be four and a half cents per ton. Read three times and passed.

REPORT OF SPECIAL COMMITTEE.

The Committee appointed to investigate the claim of Atwell, Lee & Co., for damages sustained by the loss of tobacco, by reason of a defect in the Wood street sewer, recommended that the trial of the cause be confined to a statement of the case by the attorney. The report was accepted and adopted.

TELEGRAPH POLES ON LIBERTY STREET.

The President read a communication from John H. Hampton, Esq., Solicitor of the Pennsylvania Railroad, asking the passage of an ordinance authorizing the company to erect telegraph poles on the south side of Liberty street from Morris street eastward to the city line. The communication was received and the ordinance passed, the city reserving the right to use the poles, if necessary, for the Fire Alarm Telegraph.

GAS LAMPS.

Mr. White—a resolution authorizing the erection of three gas lamps on Watson street, between Boyd and Chestnut street. Referred to Gas Committee.

Councils adjourned.

Common Council.

There were present Messrs. Barnhill, Beck, Boggs, Brush, Coursin, Ford, Hare, Hemphill, Honse, Mawhinney, McQuewan, McClelland, O'Neill, Rebman, Reed, Roenigk, Roberts, Seibert, Sloan, Torley, Verner, Weldon, Welsh and President Steele.

The minutes of the previous meeting were read and approved.

PETITION FOR A SEWER.

Mr. House presented a petition from the property owners of Diamond Alley, praying that a sewer be laid from the east side of Smithfield to Wood street. Referred to the Street Committee.

GAS LAMPS.

Mr. Hare offered a resolution instructing the Gas Committee to have a public lamp erected on the corner of Liberty street and Garrison alley. Referred to the proper Committee.

Mr. Rebman offered a similar resolution providing for the erection of a public lamp on Grant street, between Sixth street and Strawberry Alley. Referred to the Committee on Gas.

Mr. Barnhill presented a petition, asking for the erection of a gas lamp on the corner of Decatur and Townsend streets, and one between Clark and Decatur streets on Townsend street. Read and referred to the Committee.

REMONSTRANCE.

Mr. McGowan presented a remonstrance, signed by sixty of the property holders of Pike street, against the proposed opening of that throughfare, as it will involve unnecessary expense. Referred.

A NUISANCE.

Mr. Rebman offered a resolution instructing the Street Commissioners to cause the removal from the corner of Stevenson street and Pennsylvania avenue of the large copper boilers which interfere with the free passage of the street. Referred to Street Committee.

GRADING AND PAVING.

Mr. Ford presented a petition asking for the grading and paving of Mulberry alley, between Clymer and Smith streets, Ninth ward. Referred to Committee on Streets.

Mr. Coursin offered a petition for the grading and paving of Crawford street, from Centre avenue to Reed street, in the Sixth ward. Referred to the Street Committee.

The same gentleman also presented a petition from residents on Elm street, relative to the grading and paving of said street. Referred to Street Committee.

Mr. Coursin also offered a petition relative to the grading and paving of Beatty's alley, in the Seventh ward. Referred to Street Committee.

OPENING OF VINE ALLEY.

Mr. Brush offered an ordinance providing for the opening of Vine Alley, from Washington to Federal street, in the Sixth ward, in accordance to Watson's plan. Referred to the Street Committee.

IMPORTANT TO DELINQUENTS.

Mr. O'Neill offered the following resolution, which was unanimously adopted:

Resolved, That the Controller be and is hereby requested to inform Councils, at their next meeting, whether any of the city officers, now in office, or who may have held office within the last five years, are indebted to the city; and, if so, said Controller is further requested to inform Councils the amount of said indebtedness, and what steps, if any, have been taken towards collecting the same.

ASKING FOR EXEMPTION.

Mr. Ford read the following petition signed by Thomas Martin, a resident of the Seventh ward: "Your petitioner would represent that owing to the widening of Bedford street he lost one hundred and twenty-two feet by two feet nine inches of his property on said street for which he received no allowance, and being a poor man, and unable to pay for the grading, paving, &c., of said street, assessed upon his property without compensation for the loss of said property, would pray your Honorable bodies to allow him the sum of four hundred dollars for the same, as being but just and reasonable."

The petition was accompanied by a resolution granting the petition and charging the same to the Contingent Fund. The petition was accepted and the resolution adopted. S. C. non-concurred.

SPRUCE ALLEY AGAIN.

Mr. Brush presented the bill passed by the State Legislature vacating Spruce Alley from Carroll to Wilkins street, together with a resolution providing for the appointment of viewers on said vacation.

This resolution gave rise to a lively debate. Messrs. Ford, O'Neill and Siebert took grounds opposed to recognizing the act vacating the street until Councils had passed upon it. The act required the consent of Councils *after* its passage. After considerable debate and an opinion from the City Solicitor, stating that the Act provided for the action of Councils before it could go into effect, the resolution was referred to the Street Committee. Received by the Select Council and ordered to be filed.

Mr. McQuewan presented a communication covering several bills for grading and paving of Bedford street, which was read and referred to the Finance Committee.

—In all action not otherwise noticed there was a mutual concurrence.

On motion adjourned.

Malicious Mischief.—Mary Ann Cuff made an information before Alderman Thomas, charging Mary Cuff with malicious mischief. The prosecutor alleges that the defendant destroyed her laces, spools of thread and a bonnet, amounting to $12.40. The defendant was committed for trial.

CONDENSED TELEGRAMS.

—Impeachment (says a New York *Times'* special) is gathering no strength, the members standing as they did at the close of the last session. In the New York delegation there are certainly no converts to impeachment. A leading member of the Senate said, on Saturday, that from all he could learn, he did not believe there was half a dozen changes in the House on the subject. He knew of none at all in the Senate.

—A proposition for a continuous session of Congress to the end of Mr. Johnson's term is favorably received by the Republican members who have been here.

—A Southern editor has had a political conversation with General Grant, and reports the General will not accept the nomination from the Radicals proper, but he will accept it as the representative of the Conservative men.

—The Committee on Elections, in their investigations of disloyalty against the Kentucky members, have returned. The chief evidence is against Messrs. Grover and Trimble, and it is understood that some pretty strong points have been made against them. As to the other districts, except the 8th, which Mr. McKee is contesting, there was not much testimony taken.

—The annual report of Secretary McCulloch, for the fiscal year ending June 30th, is almost finished, and will, it is said, be sent to the President on the 1st of November. It is stated that as soon as the annual report of the Secretary is in the hands of the President, the strong forces arrayed in opposition to Mr. McCulloch have determined to make a pull all together in the work of procuring a change in that department.

—A hand bill offering twenty-five thousand dollars for the assassination of Hunnicutt, Underwood & Co., was found on the streets of Richmond on Sunday morning. This, it would seem, (says the New York *Herald* special) was evidently intended as an offset to the letters of the Negro Vigilance Committee ordering certain citizens to leave the city.

—The Episcopal Church, Town Hall and Keeler's stove warehouse, at Wallingford, Conn., were destroyed by fire on Sunday. Loss $30,000; insurance about $11,000.

—There seems to be no abatement of yellow fever at Memphis. There were eighty interments on Sunday.

—Hon. Joseph A. Pond, late President of the Massachusetts State Senate, died yesterday afternoon at Boston.

—The great pedestrian starts to-day from Portland, Me., on his walk to Chicago.

THE INDIANS.

Treaty Made by the Kiowas and Camanches.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, October 28.—The treaty by the Indian Commissioners with the Kiowa and Camanche tribes, on the 21st, gives them about six thousand square miles, or three and a half million acres of land, embraced between the North Fork of the Red river and the Red river, beginning at the intersection of the thirty-fifth parallel and the ninety-eight meridian, and embracing the southwestern corner of the present Indian territory with a fraction from Texas. The tribes are now estimated at four thousand persons or about eight hundred lodges. This land will therefore give them not less than eight hundred acres for each man, woman and child. It is also provided that these tribes shall induce their brethern, the Camanches of Northern Texas, to come and live with them. If they succeed the United States will enlarge their reservations by adding a quantity of land sufficient to give each person three hundred and twenty acres. If the remaining Camanches can be induced to come in, this will give a large section of country on the Texas frontier and open a way for civilization in a once powerful tribe. It is proposed to build an agency, a warehouse and other buildings, for a teacher, farmer, miller, physician, &c., and that these persons be furnished to them, to live on the reservation, and aid the Indians. In lieu of the annuities provided under the treaty of 1865, it is proposed to give each Indian on the reservation, annually, a suit of clothing, consisting of coat, pantaloons, hat and socks. In addition to this, $25,000 annually is to be given in such articles as the Indians may most need. Several other provisions are made to furnish seeds and agricultural implements to such persons as may commence farming. The Indians agree to let all railroads be built, and especially the Smoky Hill and Platte roads. They agree to keep lasting peace; to capture no more women and children; that they will attack no more trains, and cease to kill. They will be allowed to hunt on the old reservation south of the Arkansas till the settlements drive away the buffalo.

Strikers at Quebec Arrested.

[By Telegraph to the Pittsburgh Gazette.]

QUEBEC, Oct. 28.—The ringleaders in the late demonstration of the ship carpenters' strike were arrested to-day. A mob of several hundred roughs attempted a rescue, but were driven off by the soldiers. Bail to any amount was offered for the release of the prisoners, but refused. The jail is guarded by a strong detachment of the Rifle Brigade.

Mail Burned—Two Men Killed.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, O., Oct. 28.—The eastern mail, which left New York on Friday evening, was burned in the railroad accident at Xenia on Saturday night.

Two men, named Stewart and Fistens, were run over and instantly killed by Saturday night's Express west, at New Point, Indiana.

Heavy Rains in North Carolina.

[By Telegraph to the Pittsburgh Gazette.]

WILMINGTON, N. C., Oct. 28.—There has been a tremendous fall of rain, accompanied with heavy wind, which produced a very high tide, submerging the wharves on the opposite side of the river. No serious damage was done.

Gen. Sheridan En Route to Portland.

[By Telegraph to the Pittsburgh Gazette.]

PORTSMOUTH, N. H., Oct. 28.—General Sheridan stopped a few minutes on his passage through here for Portland to-day, and shook hands with a large number of persons. A salute was fired in his honor.

Weather Report.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, Oct. 28.—*Midnight.*—Heavy rain storm since 2 o'clock.

NEW YORK, October 28.—*Midnight.*—A north-east storm is prevailing.

River Telegrams.

[By Telegraph to the Pittsburgh Gazette.]

LOUISVILLE, Oct. 28.—River rising slowly with 29 inches in the canal by marks.

—The Austrian Government is taking great pains to increase the efficiency of its navy. The Archduke Leopold, who has recently been on a tour of inspection in Pola and Trieste, has appointed a commission, composed of naval officers and scientific men at the former port, to carry out experiments in naval warfare, and Rear Admiral Von Petz, who greatly distinguished himself at the battle of Lissa, and has since filled the post of director of the Naval Academy at Fiume, has been ordered to Pola to assist the port Admiral there in superintending the outfit of ships. There are now two ironclads at Trieste, one of which is nearly ready for sea, and the other, the Lissa, is being rapidly completed.

—A correspondent of the London *Globe*, alluding to a report recently circulated concerning the ill-health of the Czar, says: "The rumor is wholly unfounded. The Emperor looks ill, and seems harassed, but his intellect is in no way affected. My information is derived from a man on the spot where the Emperor is. Although no attempt to assassinate him has been made since that at Paris, it is not impossible that fears are entertained as to the existence of a plot to do so, for the strictness with which the Czar is guarded at present is quite remarkable. Precautions are taken as if he were surrounded by bravos. This circumstance may account for the worn look which his Majesty has had for some time."

Assault and Battery.—Michael McCullough, of Baldwin township, appeared before Alderman McMasters yesterday and made information against John Driesdatt for assault and battery. He alleges that the defendant invited him to a ball at his house, and that he kicked him out of the house when there. A warrant was issued.

Assault and Battery.—Mary Ann Cuff made information before Alderman Thomas, yesterday, against Mary Cuff, charging her with assault and battery, alleging that the accused threw water on her (the prosecutrix's) child. She was arrested and, after a hearing, committed in default of the required bail for her appearance at Court.

MARRIED.

McCASLIN—DALZELL.—On Thursday, Oct. 10th, by Rev. W. H. Andrews, Mr. JOHN McCASLIN, of Hampton township, Allegheny Co., Pa., and Miss ANNIE M., daughter of J. B. Dalzell, of Allegheny City.

MOORE—SEAVER.—At Byron, New York, on Wednesday, October 23d, 1867, by the Rev. T. M. Hodgman, Mr. J. E. MOORE, of Bridgewater, Pa., and Miss JENNIE A., daughter of J. W. Seaver, Esq.

—A Minneapolis teamster, with a load of lime, set fire with his pipe a bundle of hay in his wagon. He attempted reduction of the flames by dashing water copiously upon his freight, and soon found himself in fresh trouble from the lime.

—William McMullen, an employe at Campbell's saw mill, Bay County, Mo., one day last week was thrown on the saw of the mill while in motion, which nearly severed his left shoulder, exposing the heart and lungs, tearing his thigh badly, and cutting off one foot. In this condition he lingered for three days and died.

—Not many days ago, a little darkey, driver of a furniture car, in Louisiana, Pike County, Mo., put some powder in his pocket as a convenient mode of carrying it. By some means it exploded, sending buttons and breeches in every direction. For a time the darkey thought he was shot. He was only puffed and peppered.

—Professor Light made an ascension at Perryville, Juniata County Pa., on Thursday last, in his Montgolfier Balloon, with a perilous termination. His balloon split from the hoop to the top and descended with alarming rapidity. As good fortune would have it, Mr. Light lit in the Juniata River and escaped without any serious injury.

—On the evening of the 6th inst., as the members of St. Joseph (Mo.) Westminster Church, were assembled in the church building, for the purpose of holding their regular weekly prayer meeting, a stray prairie chicken fluttered against one of the windows and would not be driven off. The parson stepped out, and like a good Christian took him in.

—Probably the oldest book extant, ever published in America, is now in possession of General J. W. Phelps, of Vermont. It is a dictionary of the Aztec language, and was printed in the City of Mexico, in 1571—nearly fifty years before the landing of the Pilgrims at Plymouth, and more than thirty years previous to the establishment of the colony at Jamestown, Virginia.

—Two men recently died suddenly at a Canadian tavern after drinking a cup of coffee. The landlady called the police, who suspected her of poisoning the men. She protested she had not, and to prove the harmlessness of the coffee drank a cup herself, when she also fell down dead. An examination of the coffee-pot showed that a bunch of matches had been boiled with the coffee.

—During the session of a temperance convention at Pittsfield, Mass., some rowdies built a huge bonfire in front of the church, where the convention was assembled, and raised an alarm of fire. A cask of beer was rolled into the riotous crowd, and was soon poured down their throats, and their whole proceedings were lawless, noisy and disgraceful. The authorities made no sign.

—The *Petit Journal* of Paris has a daily circulation of over two hundred and fifty thousand copies. M. Marinoni has recently placed in the office of the *Petit Journal* four presses, each of which will print 600 impressions a minute, or a total of 144,000 impressions per hour. The Paris *Siecle*, in speaking of the fact, states that the American presses, which up to this moment have been regarded as the perfection of mechanical ingenuity, are now surpassed by the invention of M. Marinoni.

—A young officer was at a large party given in Leavenworth, when perceiving a toad, he took it up and attempted to frighten the ladies with it. After a time he threw the frog on the ground, and then happened to touch his face with his hand. A trifling pimple, which he had on his face, instantly commenced swelling, and the most violent agony speedily forced him to return to his quarters. Every effort was made to stop the inflamation, but all operations failed, and the unfortunate officer expired after two days' intense pain.

PERSONAL.

—An Ohio paper says that Vallandigham was poisoned recently, while visiting at the house of T. J. Kenny, Esq., at Ashland, O.

—The new statue of Camoens has been unveiled at Lisbon. The king, queen and diplomatic body were present, and a grand ball was given at the palace in the evening. Many streets were illuminated.

—One Jerome Strunge had the misfortune to be captured in Calabria by a party of bandits. His ransom was fixed at twelve thousand dollars. The money arrived one day after the time appointed —a delay which cost Mr. Strange his right ear.

—M. Schweitzer covets the suffrages of the Prussian workingman. He has announced his intention to introduce into the North German Parliament a bill to regulate the hours of labor, the rate of wages and the employment of women and children.

—M. Regan, the famous French author, is a stout, heavy man, with rather a dull appearance, until he begins to talk, when his features light up with a wonderful intellectual brilliancy, and his whole bearing and aspect manifest the scholar and independent teacher.

—Mme. Sourkof has just received the degree of Doctor of Medicine from the University of Zurich. She is Russian by birth, and studied at St. Petersburg with great credit until the Russian government forbade the conferring of degrees in medicine upon women.

—The Paris member of the house of Rothchild received the news of Garibaldi's arrest at an hour and a half before the first meagre dispatch reached the French Ministry of Foreign Affairs. With this bit of knowledge he made 50,000 francs at the Bourse during the afternoon.

—The oldest journalist in France, M. Jean Baptiste Gourier, died recently in a charitable institution at Issy. He was ninety-two years old. At one time he was in the office of the *Journal de Paris*. He also wrote a great number of "poems." He spent the last years of his life in playing dominoes.

—Fernando Wood is not troubled with modesty. He was called upon the other day to follow Mayor Hoffman in addressing a regiment, and said: "I have not come here to-day to make a speech, but as I am called upon to succeed his Honor, the Mayor, I do it with pleasure."

—Offenbach's carriage recently upset and bruised a little Italian, who was screaming "*Viva Garibaldi*" in the middle of the Boulevard Montmartre, in Paris. The composer got out, picked up the child, examined his bruises, gave him twenty francs, and handed him over to the police to be healed.

—The recent revival of Duma's "Antony" in Paris was made the occasion of a fervent popular tribute to its popular author. He wept himself nearly blind, but regained his eyesight sufficiently to write to the actor Duverger before going to bed a note which finished with these words: "Let us not despair of art, my dear child; with your future and my past nothing is lost."

Gold opened strong at 142¾, in consequence of more war-like rumors from Italy, but it became weaker when the Assistant Treasurer commenced paying November gold coupons; the market, nevertheless, closed strong at 142⅝, large short contracts being still out and no further news from Europe regarding the quotations of securities.

Bonds opened strong and buoyant, but became weak, and closed at a considerable decline; Eighty-one bonds at 1½; Five-Twenties of 1862, ¼; do, 1865's, ½; Consols, ¼; Ten-Forties, ½; Seven-Thirties, ¼ to ⅜ per cent. The scarcity of money, or rather the want of confidence that causes the stringency of the market, forces people to offer their securities, whilst there is but little demand for them—a Five-Twenty bond bought at par bearing six per cent. Gold is a nice investment, when, after 6 or 8 months, it commands a premium of 8 or 10 per cent., but on the other hand, a bond bought at 109, with no interest accrued, and after 5 months is, including interest, only worth 116 per cent., is undoubtedly investing money at a loss. The recent slight disturbances in Italy have caused National securities to decline from 2 to 3 per cent., what their market value will be in case of a general war in Europe. It is a delusion to suppose that French, Italian, German or English securities would decline, and American bonds advance, while the National Treasury is under suspension. If we aim at resumption before the foreign indebtedness is considerably reduced, we must be prepared to see bonds go lower, and probably, below par; if they do, so much the better for the country; it will tend to keep bonds abroad until we are prepared to redeem them, and instead of sacrificing from 33 to 50 per cent. we may buy a large per centage of them back at a discount.

The stock market is excited and higher, but nobody cares for it except professional gamblers.

Money is becoming easier, in view of a resumption of navigation, and the large cargoes of oil to go east.

Closing New York quotations received by Ph. R. Mertz, were as follows:

—The New York *Tribune* of Saturday, says: "The failure of Robert L. Taylor, an old and highly respected shipping merchant, is announced. It is stated that he is largely committed by the indorsement of the paper of H. W. Hubbell, shipping and commission merchant, who has also failed. Both parties have made an assignment. The liabilities of Mr. Taylor are said to amount to about $1,000,000, including the indorsement of Mr. Hubbell's paper. The difficulty in negotiating commercial paper has led to these failures in part. While banks can make seven per cent. in assisting stock gambling, mercantile paper is steadily thrown out, and liquidation will be found necessary with houses drifting along waiting for something to turn up.

—Says the Chicago *Journal* of Saturday: Some charges, affecting the integrity of D. D. Michaels, publisher of a commercial circular, were afloat on 'Change. It is alleged that he has absconded, leaving behind a number of forged warehouse receipts, on which he has succeeded in raising money. At present writing two forged receipts, purporting to have been issued by Tobey & Booth, and calling for 300 tierces of lard, it is said, have been discovered. It is also reported that other forged receipts on various pork houses are in circulation, but no further particulars have been brought to light as we go to press.

—A panic took place on the Philadelphia Stock Exchange, owing to a sudden dropping out of sight of several fancies which had been selling freely for some time past. This is a premonitory of what may be expected there. Boston, Water Power, Quicksilver and sic, have already fallen to one-half of their late selling price, and others must soon follow. Northwestern common, Erie, Michigan Southern, Ohio Certificates, and others which pay no dividend, are bandied about from one broker to another at prices far above their value, and as no outsiders will touch them they must fall to their level among the stocks on which no prudent banker will lend any money, and no investor will care to sink his funds.—*New York Tribune.*

—We are sorry to hear that some of the national banks of New York city have been for some time in the habit of discounting unmatured gold coupons, and carrying the same into their sworn statements as specie on hand. The November interest payment is expected by many to depress the price of gold; but this effect, judging from past experience, cannot be counted upon with any degree of certainty. Twenty four millions of gold will be required to pay the November interest upon the Five Twenties. The greater part of this will be paid through the New York Sub-Treasury. —*Boston Bulletin.*

—A letter from Titusville, Pa., refers to the present condition of the oil business, as follows:

At present quotations the business of producing oil is sufficiently remunerative to retain the old hands and bring in some new ones. Territory which promises well is rapidly being worked, and there is no present fear of the supply failing. The old system of estimating the production of new wells has not entirely passed away, and one has to keep in mind the injunction of the "unjust steward," and when "a hundred measures of oil" are reported, taken his bill and write fifty. The paying prices which oil has obtained for the past two months has turned attention to the working of abandoned wells, some of which have largely repaid their operators.

Very few wells are now going down in territory where oil is found at a less depth than 750 feet, while the majority are required to drill from 830 to 875. This requires the best of material, and has given quite an impetus to the trade in such articles, which had fallen off very materially a year ago, as then every one was using over their old stock.

The pipe lines are extending their pipes to every new field, and very few teams can be found for any purpose. Iron tankage is now so plentiful that it is thought by many that oil will be retained on storage here (in preference to moving it to Philadelphia) until sales are actually made.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, October 28, 1867.

CRUDE—The oil business was a perfect blank to-day, so far as operations were concerned. The rain which set in this morning, and continued almost without cessation during the entire day, is the cause of the present stagnation; and until the result of it is developed, it is not likely that there will be any improvement. Buyers expect lower prices in case of an early resumption of navigation, and as a consequence, with the present favorable indications, they are all, or nearly all, out of the market. A rise is badly needed, and so far as we can learn, nearly every man in the trade would like to see a good river and heavy arrivals of oil. The stock of oil in this market is nearly exhausted, and those who have sold "snort" for November would be particularly gratified if there should happen to be a rise soon.

REFINED—The rain seems to have knocked the props from under the market for bonded oil also, here as well as in Philadelphia. There was not a single sale that we could hear of, and it is said that there were offers to sell in the last named place at a material reduction. For example, spot oil was quoted at 33@33½c, against 34c on Saturday, and November at 34@34½c, against 35c on Saturday.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, October 28, 1867.

The general markets were very dull to-day, which may be attributed in part, at least, to the inclement condition of the weather, which always has a tendency to retard out-door operations. At best, however, there is but a limited demand for any of the leading articles, and, as a consequence, we have but few round lot operations to record. So far, however, as prices are concerned, there are no changes worthy of special notice.

GRAIN—Wheat is quiet and unchanged—we continue to quote prime Red at $2,50 in first hands, and $2,55@2,60, in store; sale of 1 car West Virginia White at $2,75. Corn is in good supply and dull; common mixed cannot be quoted above $1,20@1,22; sale of 1 car prime Yellow at $1,26. Oats dull and unchanged; sale of 1 car on track, at 66c, and small sales in store at 69@70c. Rye is quoted at $1,45@1,50. But little doing in Barley; we continue to quote at $1,30 on track, and $1,35@1,38c in store.

FLOUR—Is quiet and a little dull, but prices are unchanged. We continue to quote at $10,50@11 for Spring Wheat; $12,50@13 for Winter Wheat; and $14,00@15,00 for fancy brands. Rye Flour $8,50@9.

PROVISIONS—Bacon is steady but quiet and unchanged. We continue to quote at 14@14½c for Shoulders; 17@18c for Ribbed and Clear Sides; 22c for Plain Sugar Cured Hams, and 23@24c for Canvassed do. Lard may be quoted at 14c, and Mess Pork at $23,50@$24.

POTATOES—Peach Blows are coming in pretty freely, and may be quoted at $1,00 per bushel on track. New Jersey Sweets $4 per barrel.

BUTTER—Prime Roll Butter is in fair demand with sales at 38@32c. Common Packed Butter is dull and nominal; may be quoted at 18@22c.

EGGS—steady with a fair demand and continued light arrivals; sales of fresh packed at 26@27c.

CHEESE—Firm but unchanged. Sales of Hamburg at 15@16c, and Goshen at 18@19c, according to quality.

HAY—Is quiet and unchanged; sales from wagons at $15 to $22,00 per ton, according to quality.

APPLES—There is no abatement in the arrivals, and while the market is dull, prices are unchanged; sales of fair to good at $2@3, and prime to choice at $3,50@4.

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, October 28, 1867.

CATTLE.

The supply on sale to-day was hardly up to that of last week, and with a fair retail demand, the market was, if anything, a little better than last week, for drovers; that is, buyers took hold with less timidity, and prime fat cattle, in some cases, brought a slight advance. There is some inquiry for stock cattle, at very low figures, say from 3½ to 4c—farmers want to buy pretty good steers at these prices, but, as a general thing, nothing but "scalawags" can be bought at the quotations just named. As will be seen by reference to the sales below noted, prime fat retailing cattle, such as first class butchers are accustomed to buy, brought from 7 to 7½, and medium butchers cattle sold at from 6 to 6½. The Chicago *Republican* says that the best "butchers stock in that market is purchased for the Allegheny, Baltimore and other eastern markets, but no such stock goes into the Chicago stalls." This paper also remarks "that if one of these Chicago butchers buys a decent animal or two, he hunts up the live-stock reporters, and importunes them to note the remarkable fact; and, on the strength of a reputation thus achieved, he will sell four cent beef for a month at 18c and 20c and 25c per pound. It is simply outrageous." Pretty rough on the Chicago butchers; and we have no doubt these same remarks will apply to some of our Allegheny and Pittsburgh butchers.

Greenwald & Kahn report having retailed 65 head of good to prime Ohio steers at 5 to 7½. Seymour sold G. & K. 17 fat steers and heifers at 6.

L. Rothchilds retailed 26 head at 5¼ to 6½. Kraus & Hass 26 head at 5¼@7. Fowler wholesaled 9 at 5.

Jas. McAllister reports having sold 21 head for D. James, at 4½ to 5¼, and 30 head for other parties at 4¼ to 6½. L. Shamberg retailed 15 at 6 to 7¼.

Myers & Needy sold 18 head of Ohio cattle at 5 to 7½; 60 head of Washington Co. cattle at 6¼ to 7¼; 43 head of Chicago cattle, at an average of 4¼, and 18 for H. A. Merrick at 5½ to 7.

M. Verner sold 31 head of Green Co. cattle for Flannigan at 5 to 6¼; 18 head Washington Co. cattle at 5¼ to 6½, and 21 head of Ohio cattle at 4¼ to 6.

Peter Hartman reports having sold 50 head Washington Co. cattle at 3 to 7.

Rothchilds & Byers sold 48 head at 5¼ to 7.15. N. Carr sold 47 head for Clark at 4½ to 6¼, and 19 head on his own account at 4½ to 6.

Hazlewood & Co. report having sold 34 head of Indiana cattle at 5¼ to 7¼; 21 head for Zimmerman at 3½ to 5¼, and 30 head of very common stock, for another party, at 3 to 4¼.

John Kerwin reports having sold 30 head for Talbert, at 3¾ to 5, and 14 head for Dolan at 5¼ to 6.25.

Marks & Trauman report having sold 18 head of Ohio and 46 head of Washington Co. cattle at 5 to 6¼. Chas. Shomaker wholesaled 20 head of fairish Belmont Co., Ohio, steers, to Rothchilds & Byers at 6.

Lafferty, Glass & Co. report having sold 103 head of mixed stock at 3,25 to 7—12 head left over. N. Wernz 17 head of commonish stock at 3¼@4. Hevl & Bro. 20 head "scalawags" at 3 to 3½.

SHEEP AND LAMBS.

The market for Sheep and Lambs, owing to a diminished supply, was rather firmer to-day, and moved off with more animation, quite a number of dealers having closed out by eleven o'clock; but prices, upon the whole, were no better than last week. The supply was probably one-third less than last week, though the demand, so far as we could see, was no more urgent. We can quote the following sales:

Jacob Rinn wholesaled 59 head to Weaver at $2 per head; 99 to Geo. Beilsteine (butcher) at $1,90 per head, and retailed 25 head, at an average of $3 per head.

Filmer reports having retailed 140 head of Butler Co. Sheep at $2@3 per head. Thomas Bingham reports having retailed 200 head, at an average of $1,75 per head.

John Walters reports having sold 100 head of Mercer Co. Sheep at $2 to $3½. W. Fowler 270 head of Mercer Co. Sheep at $1,75@4,25 per head.

Adam Eckert reports having sold 30 Sheep at $2,50 to $4,50 per head, and 56 Lambs at $1,50 to $3½ per head. Saft sold 25 head Washington Co. Sheep at $3 to $4.

Walls sold Fowler 25 head at $2,60 per head, and Atkinson, 20 at $4 per head.

HOGS.

There was more activity in the Hog market to-day, the operations, in the aggregate, being larger than for some time past. Prices, however, are not quotably higher, though well sustained; the improvement in the demand may be attributed to the change in the weather, and while the demand for fresh pork is increased as the cold weather approaches, there will be corresponding falling off in the consumption of mutton. The following are the sales reported:

Emerick & Co. report having bought 35 head, from Stacey, at 6.25; 26 from Atkinson at 6¼; 30 from Smith at 6.25. This same firm report having retailed 160 at 6¼ to 7½.

Rinn sold 21 head to Murphy at 6. Pringle reports having retailed 28 head Butler Co. Hogs at 6¼@7¼. E. Katz reports 49 at 6 to 7.

Hyle & Bro. 64 head at 6 to 7. Rothchilds & Byers 33 head of prime to extra at 7¼ to 8¼.

Cincinnati Market.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, Oct. 28.—Flour dull and prices unchanged; Extra, $10,75@11,00; Extra Family, $11,75@12,00. Wheat dull; no buyers over $2,60 for No. 1 Red Winter, and $2.15 for No. 1 spring. Corn dull, at $1,00@1,02 at the close. Oats dull, at 67@68c for No. 1. Rye dull, at $1,46@1,47 for No. 1. Barley, $1,55@1,65 for Fall, and $1,30@1,40 for Spring. Cotton quiet, at 18c for Middling. Tobacco firm and unchanged; sales of 105 hhds. Whisky unchanged; in bond held at 34c. Mess Pork unchanged; sales at $20,00, but there is not much offering at this rate. Bacon unchanged; not much demand; Shoulders held at 13½c, and Clear Sides 17¼c; stock small and in few hands. Lard in moderate demand, at 12¼@12½c. Nothing doing in Hogs; receipts small and none offering for future delivery. Feeders are not willing to take them at the present prices. Butchers are paying $6,00@7,00 per gross, and the supply is hardly equal to the wants. Butter unchanged; fresh, 38@43c. Cheese steady, at 14½@15c. No demand for Clover or Timothy Seed. Flax dull, at $2,00. Potatoes steady, at $3,00@3,10 per bbl for the best Peach Blows on arrival. Apples are in good supply, at $2,00@4,50 per bbl. Linseed Oil dull and prices drooping; sales at $1,08. Petroleum quiet, at 51@52c for Refined, free. Gold, 143 buying. Exchange firm. It has been raining moderately since 1 P. M. Barometer falling.

St. Louis Market.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, October 28.—Tobacco is steady and unchanged. Cotton; there is but little doing; middling is worth 17c. Flour is in better demand for Southern; Superfine, $6,62@7,25; extra, $8@8,50; double extra, $9@11; treble extra, $11,50@12, and choice, $12,50@12,75. Wheat; choice fall is steady, and spring is firmer; choice white, $2,75; prime red, $2,50@2,59, and spring at $1,85@2. Corn is firm but dull, with sales at $1,10@1,13½ for old white; $1,00@1,10 for mixed yellow, and $1,02 new white. Oats; the market is unchanged, with sales at 63½@64c. Barley is quiet and unchanged at $1,27½@1,38 for prime to fancy spring, and $1,90 for choice fall. Rye is inactive and easier, with sales at $1,35@1,40. Provisions are very dull with only a retail business doing. Mess Pork, $21.75. Bacon; shoulders are selling at 13½c, and plain canvassed hams at 19½c. Lard is dull at 14c for choice keg, and 12½c for prime tierce. Receipts—2,500 barrels flour; 5,992 bushels wheat; 2,081 sacks corn; 2,224 sacks oats; 2,598 sacks barley; 334 sacks rye. The weather is clear and pleasant.

Toledo Market.

[By Telegraph to the Pittsburgh Gazette.]

RIVER NEWS.

Rain commenced to fall before day-light yesterday morning, and it continued almost without cessation during the entire day. Dispatches report rain at Franklin and Oil City, so that there will probably be a swell in the Allegheny; and, as the rain seems to be general, there will, in all probability, be a rise in the Monongahela, also. Our steamboatmen will, no doubt, feel highly elated at the favorable turn things have taken, and it is to be hoped that their expectations will not again be blasted as they were some time since.

There are quite a number of boats at the landing ready to commence business, as soon as there is any show for getting out. Among others, are the Glendale, Kate Robinson, Lorena, Maggie Hays and Armenia. The Selma, Capt. Rogers' new boat, will load for New Orleans.

We see it was proposed in the Steamboat Owner's Convention, at Cincinnati, to fix the pilot's wages, and compell them to take "cubs" put in the pilot-house by the Captain. It will hardly become a law.

The steamer Richmond (not Neal's) was sold at St. Louis on Wednesday for $8,050. She is but a year old and cost $25,000.

John E. Parker, son of Capt. Parker, a well-known river man died at Vicksburg on Sunday last of yellow fever.

The Secretary of war was authorized by Congress at the last session to build and operate two dredge boats for the purpose of deepening and keeping open the channel of one or more of the passes at the mouth of the Mississippi river. Under this authority the Secretary has entered into a contract with a Boston firm for the construction of one of these vessels. It is to be 160 feet long, with a propeller at each end, one of which is to be driven by two engines and the other by one.

The St. Louis *Republican*, of Saturday, says: Capt. W. B. Donaldson, of the famous Great Republic, arrived in this city on Thursday morning from Pittsburgh. Capt. Dan Able and others have sold to Dave Campbell, the "wrecker," the stern wheel steamers Leonora and Silver Wave. Dave will proceed at once to dismantle them. We understand that negotiations were about closed last evening for the transfer of the little side-wheeler Countess to a new set of owners.

The Huntsville, Capt. Wes. Jacobs, arrived yesterday afternoon from the Upper Missouri. The Huntsville left this port July 7, to complete the Deer Lodge's trip to Benton, but could only get to Cow Island, where the freight was put out. Captain Jacobs thinks it very probable that the steamers Gallatin, Imperial and Zephyr will be unable to get down this winter. The Gallatin, he thinks, will prove a loss, as it required every exertion of the crew to keep her afloat, the hull having been seriously damaged in crossing the different rapids.

Says the *Democrat*, of the same date: We learned yesterday with unfeigned sorrow of the death of C. G. Clement, who was well known as passenger agent of the Keokuk and the Atlantic line packets. He died at his home in this city, on Fourteenth and Market streets, his disease being pneumonia, and leaves a wife and two children. He was a brother-in-law of Capt. D. DeHaven. His life was recently insured for $5,000.

The Louisville *Courier*, of Saturday, says: The work on the great bridge over the falls of the Ohio is being vigorously pushed forward during the low water season. Eleven of the piers have already been raised some fifteen feet in hight, and the work is of the most substantial character. The coffer dam on the Kentucky side of the Indian chute is now being built, and in a few days the foundation for the pier to be erected at that point will be ready. The work is being pushed night and day, and all the piers will reach a point above ordinary high water mark the present season. It is somewhat remarkable that at no time within the past fifteen years has such an opportunity been offered as the present season for the prosecution of such a work. From the canal to within one hundred and fifty yards of the Indiana shore, the falls are nearly dry, presenting rare facilities, and the contractors have not been slow in availing themselves of this low stage of water.

We clip the following items from the Louisville *Democrat*, of Saturday:

Capt. Pink Varble has succeeded in raising U. Sam's locomotive on the falls and landing it safely at the foot of Fifth street, where it will be hauled out upon the wharf to-day. He swung it between a pair of flatboats and took it over the falls, and came through the canal with it to the city wharf.

One of the main obstacles in the navigation of the Indian chute on the falls has been the left hand reef rock almost at the head of the chute. This obstruction, at a good stage of water, prevented the channel from being more than 48 feet wide. Capt. Pink Varble, on his own responsibility, and for the benefit of the steamboats, went to work and blew the obstruction out of the way with powder. The fragments are being removed, and, when clear, the channel will be unobstructed, and, instead of being 48 feet wide, will be 69 or 70 feet wide. In the language of "Yuba Dan," we exclaim, "Bully for Pink!"

MEDICAL.

CONSUMPTION!

It would take a man a lifetime to read the treatises that have been written upon this important subject, and if a sick man were to attempt it he would make himself worse by the reading, and die before he got half through. The symptoms of the disease are, hacking cough, expectoration of matter or pus, pain in one or both lungs, chilliness, burning in the palms of the hands and soles of the feet, exhausting day or night sweats, hectic fever, wasting of flesh or marasmus, sometimes expectoration of blood. These are the usual outward symptoms, apparent not only to the observing physician, but to the patient's friends. There are, however, more important symptoms than these, which are only made manifest by auscultation and percussion, terms which mean, in a medical sense, thumping and listening and they are employed outwardly in order to ascertain what is going on inside of the cavity of the chest. The signs or symptoms elicited in this way are almost surely demonstrate the true and exact condition of the respiratory organs. A perfect auscultator can not fail in ascertaining whether the Lungs are acting naturally or not. Hence it is the best method of examining the lungs. Their actual condition once discovered, the appropriate treatment is more rapidly arrived at, and every diseased part more completely under the influence of appropriate remedies. We have long been of the opinion that consumption or decay, or wasting of the bodily strength, was dependent on a depraved state of the blood, which carries, in its course, tuberculous matter, and deposits it in the lungs, or elsewhere in the body, just as calculi or stone is deposited in the bladder, a small particle of which attracts other particles, until it becomes of such offense to the natural functions as to bring on inflammatory action, which action, if it could, would carry it out of the system, and which could have been easily done in the beginning of such disease! Dr. KEYSER'S PECTORAL SYRUP is a complete and perfect cure in the forming stage of lung disease. It acts on the very principle we have stated above, by enabling the securing or carrying off organs to do a double share of work Waste and repair are easily comprehended if the worn out material be carried off, and renewing material of a proper character, there must be health and ease, the contrary of sickness and dis-ease. In many cases of consumption which have become settled, Dr. Keyser's Pectoral Syrup fails to cure, although it will do good nearly all. He prepares a medicine called LUNG CURE or PULMONARY RESTORATIVE, which is a great tonic, and strengthens and restores the parts to be renewed, while it dissolves and carries out from the body those particles of worn out or extraneous matter, which only tend to clog or destroy it, by hindering the renewing material being deposited in proper place.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No. 16 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there I called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger, and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE, which I took in connection with the other treatment.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army January, 1866, on account of a wound in the side, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, afterwards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DOCTOR KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment, he Doct. r examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved, and my chest, where it was sunk in away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.

JOHN G. WIGHAM,
Turtle Creek.

PITTSBURGH, April 11th, 1867.

A case of five years' standing, cured by DR. KEYSER'S PECTORAL SYRUP:

DR. KEYSER:—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine my self for a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman, Fifth Ward.

Our son, JAMES PAINTER, some three years of age was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.
